SPACE IS VERY LIMITED.

WHAT TO EXPECT

Navigating Healthcare Admissions Challenges Together

Work through challenges you are faced with daily in your role as an admissions professional. Hear from peers and experts on best practices and tangible takeaways to help you improve your process.

Build a Network of Healthcare Admissions Professionals

Learn from each other. Having a network of individuals you can rely on is important in any profession. We will be facilitating and encouraging networking opportunities throughout the two-day event.

Benefit from the Mentor/Mentee Program

We will be pairing up individuals with 5+ years of experience in the admissions profession with individuals with less than 5 years of experience. This will help foster relationships among the community.

Discuss Challenges you face and work through them with Peers and Experts

The admissions profession is very rewarding but comes with its own challenges. Discuss these challenges with a community that understands and can help come up with solutions you can implement.

A Unique Conference Experience

Working in higher education means that you have probably attended several conferences in the past. We aim to bring you a unique and positive conference experience filled with facilitated networking opportunities, educational value, entertainment and most importantly, fun!

Explore The Exciting City Of Toronto

With so much to see and do, we--ahem, I mean our "Toronto Experts" will make recommendations for sightseeing, restaurants, unique bars and pubs as well as the best coffee shops to visit. All to welcome you the truly Canadian way!
