

Provider Practice Essentials

Focused. Current. Concise.

Our efficient combination of high yield and entertaining clinical lectures, combined with topic-focused procedure workshops will bring your clinical practice to a higher level. Over two intense days we hit home the clinical concepts and skills that anyone in a primary care, urgent care, or emergency department setting need to provide the best care. Also, with our added MIPS/MACRA, Billing, and coding tips, we will give you the edge to maximize your clinical value in any practice setting you choose!

Our Courses for 2018 are filling quickly! Check us out at www.PPEMedical.com
