Twin Cities *Foot & Ankle* Conference

Dear Colleague,

We are pleased to invite you back in-person to the Twin Cities Foot & Ankle Conference on November 4-6, 2021 at the Saint Paul RiverCentre hosted by Minnesota Podiatric Medical Association.

Our three-day conference will cover the entire spectrum of foot and ankle care in sessions aimed at enhancing your skills in sports medicine, wound care, new surgical techniques and treatments of foot and ankle conditions, and much more. Back by popular demand is the fireside chat and case review on Thursday evening that will offer unique, challenging, and thought-provoking discussion on cases provided by your colleagues. And you won't want to miss the comprehensive lecture series on surgical and office-based billing and coding!

An external fixator lab will be held on Saturday utilizing an interactive lecture and case-based approach that is designed for participants of all skill levels whether or not you currently incorporate external fixation into your practice. Surgeons will be provided with the foundational knowledge of external fixation including the biomechanics of various frame types, indications, application techniques, post-operative management, and potential complications. Space is limited!

MPMA's annual business meeting will be held on Friday from 6:00-7:00 p.m. where members will receive an update on the association's activities and other important information while enjoying cocktails and appetizers.

Don't forget to stop by the exhibit booths to explore and learn about new innovations, products, and services that you do not want to miss from top industry members. For every three booths that you visit, you will receive a ticket to enter your name into drawings for a variety of excellent prizes. We are grateful for the support our industry partners provide us and the vital role that they play in our community.
