WEBINAR

#7374 Myofunctional Techniques for the Feeding Therapist

Instructor:

**Samantha Heidenreich OTD, OTR/L,
Myofunctional Therapist, Feeding
Specialist, Certified Holistic Nutritionist**

Audience:

Occupational Therapists and Assistants, Speech
Language Pathologists, and Feeding Therapists

Delivery Options:

Live Webinar or Self-Study Options

SUMMARY: The purpose of this course is to provide an overview of myofunctional therapy techniques and topics related to orofacial growth and development and how they are applicable to pediatric feeding therapy. Strategies for assessment and intervention will be provided and case studies will be reviewed. Course instruction methods include lecture, demonstration, videos, case studies and question/answers. (Intermediate Level)

PRESENTER: Samantha Heidenreich earned her Doctorate and Masters degrees in Occupational Therapy from the University of St Augustine for Health Sciences in San Marcos, California. Her doctorate capstone focused on feeding and nutritional interventions for children with Autism Spectrum Disorder. Since graduating, she has spent her clinical time in the pediatric settings, with focus on various forms of assessment and intervention for children with feeding disorders and picky eating presentations. Samantha is certified in multiple specialized areas of practice related to feeding: Beckman Oral Motor Protocol, SOS Approach to Feeding, AEIOU Systematic Approach to Feeding, and has just completed the initial coursework to obtain her Certification in Orofacial Myology from the IAOM. She is a Certified Holistic Nutrition, and completed the AOTA certification in Nutrition, Chronic Disease, and Health Promotion. Samantha completed CST1 and CST2 through the Upledger Institute, as she works to earn her certification in CranioSacral Therapy. Samantha is the owner and clinical director of Integrative Wellness and Therapeutics, a pediatric outpatient therapy clinic in North Carolina. *Financial*— Received a teaching honorarium from Motivations Inc. *Nonfinancial*— No relevant nonfinancial relationship exists.

OBJECTIVES: Upon completion of this course, the participant will be able to:

1. Identify and implement signs and symptoms of orofacial dysfunction in pediatric feeding clients.
2. Provide parent/caregiver education and training to support home program implementation of therapy strategies to improve eating behaviors related to orofacial structures and function.
3. Utilize provided resources to support a more comprehensive approach to assessment and treatment interventions for pediatric feeding clients in an outpatient therapy setting

FORMAT: This is a 3 contact hour course equivalent to 3 CEU's or 0.3 CEUs offered as a live webinar or self-study. Instructors present the live course content via an internet website displaying real time power points. Learners will receive a course instruction link. Instructors lecture through livestreaming internet on your computer. Questions may be asked during the webinar using the chat feature or the "raise hand" feature for live discussion.

SLP Credit: This course is offered for 0.2 ASHA CEUs (Intermediate Level).

Motivations Inc. is an AOTA Approved Provider of professional development. PD activity approval ID# 10699. This Distance Learning-Interactive or Distance Learning-Independent activity is offered at 0.3 CEUs, Intermediate Level, Occupational Therapy Service Delivery/Foundational Knowledge. The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA.

AGENDA:

Pre-Study: 30 Minutes Plan to read the course materials, references and review the post test before the start time. Please be prepared to share patient case study and related question during the discussion time.

5 minutes Introduction

30 minutes Review of orofacial growth and development including pediatric norms, anatomy and physiology

15 minutes Connection/relationship of orofacial structures to the function of feeding

20 minutes Assessment of myofunctional dysfunction

20 minutes Myofunctional Interventions for feeding

20 minutes Case study examples to provide overview of the use of myofunctional techniques in feeding therapy

10-15 minutes Q + A

Post-test: 30 Minutes Research, identify, and submit your post test question answers on the online form. This is an open book test you can take multiple times if needed to obtain the 70% score. Complete the evaluation feedback survey and needs assessment. Obtain, review and save your auto-emailed certificate for your files.
