Need for Program

Safety and quality are essential and are directly linked to knowledge. The need for you to continually seek new information in regard to the nursing care you provide is a given no matter where you work. This is a time when:

- Healthcare budgets are under increased stress
- community purse is shrinking
- is no longer the goal of care and is being replaced with quality outcomes.

It is more important than ever that you take a leadership role in providing high value care to people that is outcome focused. Addressing emerging gaps in knowledge through up-to-date information is crucial if safe, quality outcomes are to be achieved.

Purpose of Program

This program provides you with current knowledge relating to a range of professional and practice topics that will improve how you deliver nursing care.

Learning Outcomes

At the conclusion of this program it is expected that the participants will be able to:

- People in your care with health risks will receive preventative nursing action to avoid illness
- Better patient outcomes will be achieved through the application of up-to-date knowledge relating to specific nursing interventions
- Inter-professional collaboration will be optimised to enhance patient outcomes
- Patient outcomes will be underpinned by evidence-based practice and recognised standards and

guidelines
