

16th ANNUAL
Vascular Innovations Conference

Mar. 22-23, 2019

Detroit Marriott Troy
Troy, MI

Beaumont

The **Vascular Innovations Conference** has been a tremendous success from its beginning. It has grown from a single department to multi-institutional endeavor, drawing attendees from throughout the Great Lakes region. The 16th Annual Vascular Innovations Conference will maintain the tradition of diverse clinical approach, with nationally recognized faculty representing the multidisciplinary nature of vascular disease. The Conference will focus on renal disease from hypertension through ESRD, arterial disease, venous thrombosis and treatment.

16th ANNUAL Vascular Innovations Conference

Target Audience

This conference will provide physicians (cardiovascular, vascular medicine, vascular surgery, interventional cardiology, interventional radiology, internal medicine and family practice), as well as vascular technologists, sonographers, residents, fellows, physician assistants and nurses a better understanding of vascular disease, technical advances, clinical applications and interpretation criteria for non-invasive vascular studies.

CME Accreditation and Credit Designation

Beaumont Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Beaumont Health designates this live activity for a maximum of 12.25 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Credit breakdown: Friday 7.25 and Saturday 5.0

Non-physician professionals should check with their individual credentialing bodies to confirm that participation in this CME activity will be approved for credit. CME credits can be used to meet the continuing education requirements needed for Michigan physician assistant and nursing relicensure without limitation.

Objectives

As a result of attending this conference, participants should be able to:

- demonstrate understanding of current treatment options for renal disease
- discuss medical management options for central venous obstruction and pulmonary embolism
- recognize the role of ultrasound in the diagnosis of iliac disease, phlegmasia, arterial-venous malformations and fistulas

Program Highlights

- renal transplant ultrasound imaging
- IAC - Vascular Testing update
- patient safety
- lymphedema
- vascular imaging tips
