CONFERENCE

www.menaconference.com

Welcome from the Chair

Dear Colleagues,

On behalf of the scientific Committee, it gives us a great pleasure to invite you to the **"3rd Masterclass in Gastroenterology, Hepatology and Related Diseases Conference"** that is planned to be held on **5-6 April, 2018** at Rosewood Hotel in Abu Dhabi, UAE.

Building on the success of last year's conference, this program is designed to update practitioners who care for patients with digestive diseases with an in-depth knowledge of recent, cutting-edge advancements in Gastroenterology and Hepatology in order to stimulate knowledge and information among medical practitioners and to create a platform for communication between leading experts and professionals in the field of Gastroenterology and Hepatology.

The main theme of the conference is "Exploring New Dimension of Gastroenterology & Related Specialties" this year event anticipates more than 500 participants around the region with thought provoking keynote lectures, updates of multiple topics, plenary sessions, oral presentations, poster presentations and expert review and discussion on the hottest topics in GI medicine and related diseases.

The conference is designed to meet the needs of Gastroenterologists, Hepatologists and other related specialties and physicians-in-training who wish to expand the understanding and increase knowledge of GI medicine.

The two days event will bring together the foremost thought leaders and experts in Gastroenterology & Hepatology and related specialties from the UAE, the region and all over the world to present data on multiple topics, including inflammatory bowel disease, colorectal neoplasia, General GI, Esophageal, motility, nutrition, pancreaticobiliary disorders, endoscopy and hepatology.

Controversies in diagnosis and management will be analyzed in discussions and breakout sessions. Complex endoscopy cases and cutting-edge technology will be presented by expert endoscopists in a video forum.

Moreover, an important feature of this conference is its case panel discussions. One of our frequent challenges is making practical use of knowledge. Therefore, the program format will include case presentation discussion sessions with a multidisciplinary panel of experts from medical, endoscopic and surgical disciplines, discussing diagnostic and management controversies. Among areas of focus for these panels will be gastrointestinal bleeding, gastroesophageal reflux disease, acute and chronic diarrhea, inflammatory bowel disease, esophageal disorders, gastrointestinal neoplasia, motility and liver disease, including liver transplantation, hepatitis, pancreatitis, malignancy such as colorectal cancer, and many others.

To make this a complete scientific experience, great care is being taken to design a comprehensive program in all fields of Gastroenterology and Hepatology in consultation with a renowned faculty from the field

Moreover, The meeting will offer a superb opportunity for physicians, medical specialists and all healthcare professionals to attend expert updates and to share and exchange best practices, knowledge and experiences and to network with new and established colleagues, creating and strengthening clinical collaborations.

We look forward, again, to a memorable Gastroenterology Conference
See you in Abu Dhabi in April, 2018

Dr. Salem Awadh Sabih
Conference Chairman
Consultant Gastroenterology & Hepatology,
Advanced Day Care Surgery, Abu Dhabi, UAE

Dr. Makki H Fayadh
Conference Co-Chairman
Consultant Gastroenterology & Hepatology,
Advanced Day Care Surgery, Abu Dhabi, UAE

Scientific Committee

- **Dr. Salim Awadh Sabih** - Conference Chairman
- **Dr. Makki H Fayadh** - Conference Co-Chairman
- **Dr. Nigel Umar Beejay**, Consultant - Head of Scientific Committee

Members

- Hepatology: **Dr. Alaa Eldin Ibrahim**, Consultant, Internal Medicine / Gastroenterology
- Endocrine: **Dr. Tarek Badawy**, Consultant Internal Medicine and Endocrine
- Surgery: **Dr. Mahmoud Abdellatif Bahram**, Consultant General Surgery
- Surgery: **Dr. Ritu Khare**, Specialist General Surgery
- Oncology: **Dr. Sadir Jumaa Al Rawi**, Consultant
- Cardiology: **Dr. Ayman Gouda Abdel Aziz**, Consultant Cardiology
- Obstetrics and Gynecology: **Dr. Abeer Mohamed El Hadi**
- Dermatology: **Dr. Khaled Othman**, Specialist Dermatology
- Dermatology: **Dr. Hossam Elenany**
- Rheumatology: **Dr. Nagwa Mahmoud Mossalem**, Consultant Internal Medicine
- Rheumatology: **Dr. Samer Alnohaily**
- Nephrology: **Dr. Yassin Ibrahim M. El-Shahat**
- Urology: **Dr. Hatem Ebid**
- Histopathology: **Dr. Saba Al-Bazzaz**
- Radiology: **Dr. Diaa Aldeeb**
- Clinical Pathology: **Dr. Lamyaa Ibrahim**

Organizing Committee

- **Mr. Mahmoud Juma** - Head of Organizing Committee, CEO - Advance Center for Day care Surgery

Members

- Mr. Khaled Afifi
- Mr. Samer Rashed
- Dr. Wael Abu Zuhri
- Ms. Beverly Cruz

Conference Secretary

- Ms. Dianne Rachel Pastorfide
- Ms. Fozia Mohamed

Target Audience

This activity is designed to meet the educational needs of practicing physicians and other healthcare professionals interested in learning the latest information on diseases specific to Gastroenterology and Hepatology, including:

- Gastroenterologists
- Hepatologists
- Radiology
- Pathology
- General Surgeons
- Internists
- Oncologists
- General Practitioners
- Family Medicine
- Medical and Surgical
- Residents
- Dieticians
- Trainees & GI Endoscopy
- Pharmacists
- Nurses
- Medical Students
- And Allied Healthcare professionals interested in the topic

Conference Highlights and Track Sessions Include

- Advances in Gastrointestinal Diseases
- Inflammatory Bowel Disease
- Hepatitis B
- Hepatitis C
- Malabsorption
- Esophageal Reflux Disease
- Gastrointestinal Bleeding- Treatment and Management
- Peptic Ulcer Disease
- Obesity & GI
- Diabetes & GI
- Neurological Manifestation & GI
- Antibiotics in GI Diseases
- Allergic Diseases & GI
- Skin Manifestation & GI
- Psoriasis & GI Disease
- Thyroid Disorder & GI
- Anticoagulant & Gastrointestinal Diseases
- Multisystem Diseases
- Inherited Syndromes
- Vitamin D Deficiency & GI Diseases
- Celiac disease
- H. pylori Infection
- Constipation updates
- Probiotics in medicine
- Gastrointestinal pathology
- Gastrointestinal Tract Imaging
- Gastrointestinal Surgery
- Evaluation of Chest Pain
- Behcet's Disease
- Intestinal Gas
- Pancreatic and Biliary Tract Diseases
- Genetics Diseases: Future Predictions
- Functional GI Disorders
- Emerging Therapies for Viral Hepatitis and Liver Fibrosis
- Gastrointestinal Therapeutic Endoscopy- Advancements and Challenges
- Gastrointestinal Pharmacotherapy
- Gastric Bariatric Surgery- Types and Treatment
- Viral and Non-viral Hepatitis
- Hepatitis C Genotype 3
- Hepatitis B in pregnancy
- Abdominal emergencies
- The role of endoscopy
- Liver & GI Malignancies
- Clinical Nutrition in Gastrointestinal Disease
- Endourology- Clinical Update
- Urodynamics & Neurourology
- Urologic Oncology
- Pediatric Gastroenterology
- Future of Transplantation and Surgery
- Case Discussions and Demonstrations
- Meet the Expert session

Conference Objectives

Upon completion of this educational activity, participants will be able to:

- Recognize typical clinical presentations of various etiologies of abdominal pain (peptic ulcer disease, cholecystitis, pancreatitis, bowel obstruction, etc.)
- Identify and distinguish features of various forms of hepatitis
- Describe an appropriate evaluation of abnormal liver function tests
- Define typical and atypical features of gastroesophageal reflux disease and identify complications
- Describe the evaluation of dysphagia Realize the importance of H. pylori and non-steroidal anti-inflammatory drugs in GI pathology
- Differentiate upper and lower gastrointestinal bleeding and describe appropriate management strategies
- Describe the basic causes of diarrhea and outline an appropriate work-up for both acute and chronic diarrhea
- Recognize irritable bowel syndrome and outline an appropriately limited work-up
- Realize the role of endoscopy for both screening and therapeutic purposes
- Recognize GI manifestations of systemic illness (vasculitis, CREST, neuroendocrine tumors, adrenal insufficiency, diabetes mellitus, etc.)
