ABOUT CONFERENCE

After the completion of our 1st Edition of Neuroscience & Mental Disorders at Rome, Italy during July 01 - 02, 2019. We are pleased to announce our 2nd Edition of Neuroscience & Mental Disorders to be held at London, UK on 11 - 12 May, 2020. Neuroscience 2020 showcases the best medical practices in the world, and provides a one-of-a-kind forum to explore the complete spectrum of neurology from basic science to translation and application. We aim to narrow in on your scientific niche, and connect with the experts in your field. We provide unique opportunity for Researcher's, Advertisers, Exhibitors and Sponsors at this International event to share their ideas and improve their Network.

AIM

Neuroscience 2020 | London, UK is mainly designed to offer diverse sessions that address the theme "Emerging Challenges and Advances in Neuroscience" and explore advances in research, practice, management and education in relation to disparities as well as a breadth of other topics. This provides a platform that describes and discusses the increasing global public health importance of common neurological disorders such as dementia, epilepsy, Alzheimer's, Parkinsonism, headache & Migraine, multiple sclerosis, neuroinfections, neurological disorders associated with malnutrition, pain management, stroke and traumatic brain injuries, Psychiatric Disorders and also clinical aspects.

Our conference aims to;

Provide opportunities for academics from a range of disciplines and countries to share their research ideas. Provide opportunities for academics to receive informal in-depth feedback through discussions and to enable them to establish contact with professionals in other countries and institutions. Networking provides access to various research activities with current findings and developments anticipated from other participants.

ABOUT CITY

The City of London, known for its historical landmarks, oldest city that boasts four World Heritage Sites: The Palace of Westminster and Westminster Abbey, The Tower of London, Maritime Greenwich and The Royal Botanic Gardens. London is the political, economic and cultural capital of Britain. The city isn't all about history or historic buildings. There are many constructions in past decades, and today many of London's tallest towers can be found, including the Natwest Tower (or National Westminster Tower) which is the tallest skyscraper when it was built in 1980. Another well-known modern building is the Lloyd's of London, St. Mary Axe, recently 20 Fenchurch Street, an eye – catching skyscraper of a 34-story tower with a large sky-garden. Big Ben, The clock inside the tower was the world's largest when it was installed in the middle of the nineteenth century. London's Tower Bridge is one of the most recognizable bridges that crosses the River Thames, and also close to Tower of London. It has become an Ironic Symbol, because of its Victorian Gothic style stems from a law that forced the designers to create a structure that would be in harmony with the nearby Tower of London. The City of London is the centre of global foreign exchange dealing. Over 40% of all the world's foreign exchange transactions are made in the City – a total of \$2.7 trillion per day!
