

29 April 2018, Dubai, UAE.

CERTIFICATE COURSE IN FETAL ECHOCARDIOGRAPHY

**Practical Skills Workshop
Hands on Training**

CME CREDIT
HOURS
OFFERED

**Target Audience: Consultants, Physicians,
Senior Specialist Registrars, Clinical Assistant and Radiographers,
Nurses and Midwives who wish to learn more in less time.**

**The Largest Ultrasound Training
Organisation in the Middle East**

COURSE OUTLINE

- ◆ Fetal echocardiology – basics protocol for basic cardiac evaluation in axial views
(basic grey-scale examination of 4 chamber view and out-flow tract, impact of Doppler imaging including tips for its setting) long axis and short axis of the heart.
- ◆ Fetal cardiac defects in the 2nd and 3rd trimester – 60
(abnormalities detectable of 4 chamber view: AVSD, VSD, double inlet one ventricle, Ebstein anomaly, Coarctation, Hypoplastic left heart syndrome, Pulmonary atresia, abnormalities of the outflow tract: Tetralogy of Fallot, perimembranous VSD, Aortic stenosis, Pulmonary stenosis, Transposition of great arteries, Right aortic arch, Double aortic arch, persistent left SVC, ARSA).
- ◆ The role of fetal echocardiography in the screening for chromosomal abnormalities – 30 minutes
(association of cardiac defects with chromosomal abnormalities, most common types of cardiac abnormalities connected with trisomy 21, 18, 13).
- ◆ Fetal echocardiography in the 1st trimester – 30 minutes
(Examination of the fetal heart in the first trimester & cardiac defects detectable in the first trimester including their prognosis).

FACULTY LED BY

PROF. VERONIKA FRISOVA, PhD, M.D.

Currently working in Profema-Fetal Medicine Centre Ltd and Faculty of Medicine at Palacky University Olomouc.

The course allows for understanding of the vast majority of typical Fetal experienced experts of Fetal Medicine, who will also present the issues of prognosis and treatment possibilities. They will discuss this matter in a simple and approachable way so as to eliminate the concerns connected with the Fetal Heart examination.

They will be focusing much attention to practical classes, which include examinations in the first and the second trimester of pregnancy. An open form of the case examinations helps in the understanding of the most effective way of using an ultrasound scanner in examination of the normal and abnormal heart.

COURSE FEES

AED 1,500/-

+ 5% VAT (As per UAE law)

Course fees are non-refundable for cancellation within 30 days of course date. For earlier cancellations (or switching to another course), 10% administrative charges will be deducted.

The organiser reserves the right to cancel or alter the content and timing of the programme, the venue and the identity of speakers.
