29th Jagelman/39th Turnbull

International Colorectal Disease Symposium

February 15 – 17, 2018

2nd Annual Pelvic Dissection taTME Cadaver Lab

February 14, 2018

Join Us

The **Colorectal Disease** program is designed to provide a comprehensive in-depth, detailed overview of new, controversial, challenging, and provocative colorectal themes. This exciting and stimulating conference will bring together colorectal experts to discuss issues in the field.

This year will again include the **Pelvic Dissection taTME Cadaver Lab** as a non-CME educational opportunity, which allows participants the opportunity to receive instruction from renowned faculty and develop and/or perfect their technique of transanal surgery.

Attendance at the symposium will provide the attendees with a detailed analysis of the current status of every major colorectal area. Video demonstrations will help improve competencies and patient outcomes. Multidisciplinary integration amongst surgery, gastroenterology, imaging and pathology will be emphasized in combined sessions centered upon the definitions and optimization of patient outcomes.

Optional **Scientific Paper Session**, where participant abstracts are presented in both electronic poster and podium format will also be included as a non-CME educational opportunity.

****ABS Maintenance of Certification (MOC) Points Available!****

Sessions

Wednesday, February 14

2nd Annual Pelvic Dissection taTME Cadaver Lab

OPTIONAL NON-CME PROGRAM: Registration and additional fee required

LOCATION: M.A.R.C. (Miami Anatomical Research Center)

Thursday-Saturday, February 15-17

Colorectal Disease General Session

- Rectal Cancer – Striving for Excellence
- Debates and Dilemmas in Rectal Cancer Surgery
- David G. Jagelman, MD Memorial Oration
- Mastering taTME
- Technical Tricks to Master
- IBD Combined Symposium
- Endoscopy Combined Symposium
- Victor W. Fazio, MD Memorial Oration
- Benign Anorectal
- Confounding Conundrums
- The Secrets to Success in 2018
- New Solutions to Old Problems
- Rupert B. Turnbull, MD Memorial Oration
- Improving Outcomes
- Advanced Aspects of Anorectal Surgery

Planning Committee

Conor P. Delaney, MD, MCh, PhD
Chairman, Digestive Disease and Surgery Institute
Victor W. Fazio MD Endowed Chair in Colorectal Surgery
Professor of Surgery, Cleveland Clinic Lerner School of Medicine
Cleveland Clinic, Cleveland, Ohio

I. Emre Gorgun, MD
Department of Colorectal Surgery
Staff Surgeon and Quality Improvement Officer
Digestive Disease and Surgery Institute
Cleveland Clinic, Cleveland, Ohio

David Maron, MD
Vice Chair, Department of Colorectal Surgery
Program Director, Colorectal Surgery Residency
Department of Colorectal Surgery
Digestive Disease and Surgery Institute
Cleveland Clinic, Weston, Florida

Dana R. Sands, MD
Staff Surgeon, Department of Colorectal Surgery
Director, Colorectal Physiology Center
Digestive Disease and Surgery Institute
Cleveland Clinic Florida, Weston, Florida

By Attending, You Will Be Able To:

- Compare methods of surgical management of rectal cancer
- Evaluate the benefit of synoptic reports
- Describe the techniques and results of transanal total mesorectal excision
- Assess the evaluation and management of difficult and complex colorectal problems
- Discuss the newest procedures for fecal incontinence
- Debate the methods of treatment of rectal prolapse
- Outline the assessment and treatment of difficult anorectal conditions
- Compare the new methods of managing inflammatory bowel disease
- Describe advanced therapeutic colonoscopy techniques
- Deliberate the benefits of interdisciplinary management of colorectal cancer
- Present innovate tools to improve outcomes
- Realize improvements in surgical education
- Assess strategies to minimize morbidity
- Review effective therapeutic options for post treatment morbidity

Who Should Attend?

Physicians, residents, fellows, nurses, wound care professionals, physician assistants, and allied health professionals specializing in colorectal surgery, general surgery, laparoscopic surgery, endoscopic surgery and gastroenterology.

Activity Co-Directors

Steven D Wexner, MD, PhD (Hon), FACS, FRCS, FRCS(Ed)
Director, Digestive Disease Center
Chair, Department of Colorectal Surgery
Cleveland Clinic Florida, Weston, Florida
Affiliate Professor, Florida Atlantic University College of Medicine
Clinical Professor, Florida International University College of Medicine

Scott Steele, MD, FACS, FASCRS
Chairman, Department of Colorectal Surgery
Digestive Disease & Surgery Institute
Rupert B. Turnbull M.D., Endowed Chair
in Colorectal Surgery
Cleveland Clinic, Cleveland, Ohio

Faculty

Colorectal Symposium

Invited Faculty

Matthew Albert, MD, Orlando, Florida
Manish Chand, MD, London, England
George Chang, MD, Houston, Texas
Giovanni Dapri, MD, Brussels, Belgium
Antonio de Lacy, MD, Barcelona, Spain
Andre D'Hoore, MD, Leuven, Belgium
Jakob Izbicki, MD, Hamburg, Germany
Joep Knol, MD, Hasselt, Belgium
Sean Langenfeld, MD, Omaha, Nebraska
John Marks, MD, Wynnewood, Pennsylvania
Justin Maykel, MD, Worcester, Massachusetts
Elisabeth McLemore, MD, Los Angeles, California
John Migaly, MD, Durham, North Carolina
Giovanni Milioto, MD, Rome, Italy
Rodrigo Perez, MD, Sao Paulo, Brazil
Sergio Regadas, MD, Fortaleza, Brazil
Sthela Regadas, MD, Fortaleza, Brazil
Roland Scherer, MD, Berlin, Germany
Patricia Sylla, MD, New York, New York
Mark Whiteford, MD, Portland, Oregon

Cleveland Clinic Faculty

Mariana Berho, MD
Brad Champagne, MD
Giovanna da Silva, MD
Tracy Hull, MD
Matthew Kalady, MD
Hermann Kessler, MD
Juan Nogueras, MD
Albert Parlade, MD
Jeffrey Ponsky, MD
Fabio Potenti, MD
Lester Rosen, MD
Raul Rosenthal, MD
Sherief Shawki, MD
Michael Valente, MD
Eric Weiss, MD
Massarat Zutshi, MD

Gastroenterology & Hepatology

Invited Faculty

Asyia Ahmad, MD, Philadelphia, PA
Amitabh Chak, MD, Cleveland, Ohio
John Dumot, MD, Cleveland, Ohio
Douglas Pleskow, MD, Boston, Massachusetts

Cleveland Clinic Faculty

Amit Bhatt, MD
William Carey, MD
Fernando Castro, MD
Tolga Erim, DO
Brenda Jimenez-Cantisano, MD
Arthur McCullough, MD
Robert O'Shea, MD
Nicole Palekar, MD
Ronnie Pimentel, MD
Siva Raja, MD
Bo Shen, MD
Tyler Stevens, MD
Xaralambos (Bobby) Zervos, DO
Gregory Zuccaro, MD

7th Annual

Gastroenterology and Hepatology Symposium

Marriott Harbor Beach | Fort Lauderdale, Florida

February 16 – 17, 2018

Join Us

The **Gastroenterology and Hepatology Symposium** will focus on practical and evidence-based aspects of managing the difficult GI disorders in gastroenterology and hepatology practice. This 2-day symposium will provide guidance to attendees on diagnostics and management of challenging cases in clinical practice and latest advances in the field, including esophageal diseases, liver disease, inflammatory bowel disease, small bowel and pancreatic diseases, and endoscopy. Each session will include didactic presentations followed by a panel discussion about the optimal approach to the diagnosis and management of the presented topics.

Optional **Scientific Paper Session**, where participant abstracts are presented in both electronic poster and podium format will also be included as a non-CME educational opportunity.

****ABIM Maintenance of Certification (MOC) Points Available!****

Sessions

Friday – Saturday, February 16-17 Gastroenterology and Hepatology General Session

- IBD Combined Symposium
- Endoscopy Combined Symposium
- Victor W. Fazio, MD Memorial Oration
- Hepatology
- Anthony Tavill Memorial Oration
- Endoscopy: Cancer/Dysplasia of Foregut
- Pancreaticobiliary
- Endoscopy Forum with the Experts: Tips and Tricks to Optimize Outcome

By Attending, You Will Be Able To:

- Review recent advances and challenges in the management of inflammatory bowel disease and implement strategy for optimizing medical, endoscopic and surgical therapy in IBD patients
- Identify current indications and applications for advanced endoscopic techniques EMR, ESD, colonic stenting, and transanal endoscopic surgery
- Review recent advances in detection of Hepatic Fibrosis, the management of NAFLD, and the role of the fecal microbiome in Liver disease
- Discuss latest treatment options for patients with the rumination, cyclic vomiting and irritable bowel syndrome
- Recognize new diagnostic modalities and therapeutic options for patients with Cancer/Dysplasia of the foregut
- Discuss the evaluation of patients at high risk for pancreatic malignancies, indeterminate biliary strictures and the management of complicated acute pancreatitis
- Define the best management strategies and apply the latest endoscopic methods and techniques to treat patients with GI emergencies including GI bleeding, foreign bodies, bowel perforation

Who Should Attend?

Physicians, residents, fellows, nurses, physician assistants, and allied health professionals specializing in gastroenterology, hepatology, endoscopy, internal medicine and other interested health care professionals.

Activity Co-Directors

Roger Charles, MD, FACG
Chair, Department of Gastroenterology
