The 1st Middle-Eastern Conference on Stereotactic and Functional Neurosurgery

January 16-18, 2016 | Dubai, UAE

MESSAGE FROM THE PRESIDENT

Dear Colleagues, Friends and Guests,

On behalf of the Organizing Committee, it is with great honour and pleasure to welcome you all to the 1st Middle Eastern Conference for Stereotactic and Functional Neurosurgery which will be held at Jumeirah Emirates Towers in Dubai, United Arab Emirates on January 16, 17 & 18, 2016.

We are honoured that this conference is under the auspices of the World Society for Stereotactic and Functional Neurosurgery (WSSFN), and in collaboration with the Pan Arab Neurosurgical Societies (PANS) and the Gulf Neurosurgical Society (GNS). Our gratitude and thanks for their continuous patronage and support. The theme for this even is ***"Bringing the World Together"***.

The 1st Middle Eastern Conference for Stereotactic and Functional Neurosurgery aims to be the main regional and regular stereotactic and functional neurosurgery event that utilizes education, research and advocacy to foster the highest quality, ethical, value and evidence-based stereotactic and functional neurosurgery care for healthcare providers and patients provided by highly acclaimed international and regional faculty.

Working together with WSSFN has been proven to provide a high calibre platform to coordinate efforts undertaken in the Middle East for further development in this field of stereotactic and functional neurosurgery.

We are proud to be proactive in the continuance of medical education with ambition to deliver the advanced and highest standard of teaching for the benefit of patients, healthcare providers, hospitals and communities.

Enjoy the opportunity of visiting Dubai, the most sought after destination which represents a mix of living and business environments, a tourist haven offering the widest attractions from luxury urban spots to historic architectural places connected by state-of-the-art infrastructures and transportations.

We welcome you to Dubai and wishing you the very best and pleasant stay.

Sincerely,

Ahmed Alkhani, MD, FRCSC, FAANS

President

1st Middle-Eastern Conference for Stereotactic & Functional Neurosurgery
