GENERAL INFORMATION

Overview

Please join us for the Annual Innovations in Neuroscience conference which promises to be a great occasion for educational development in a relaxed and beautiful setting. The theme for the meeting this year is based on Hippocrates' quote, "DECLARE THE PAST, DIAGNOSE THE PRESENT, FORETELL THE FUTURE." The theme reflects the challenges we are facing politically, technically and diagnostically in medicine. Our goal is to embrace these challenges and foremost "to help, or at least to do no harm." This program provides a rewarding and excellent variety of topics in neuroscience, delivered by a multidisciplinary team of experts in their field.
