2025 IEDLI Core Course Offerings

Leadership Essentials | 3-7 November 2025

The original course at IEDLI, the five-day Leadership Essentials includes over 35 hours of interactive, seminars and workshops providing a foundation for advanced leadership topics. Participants work in assigned groups with other emergency department professionals to complete activities, discuss lectures, and share experiences from their own emergency departments around the world.

Join us in the Leadership Essentials Course and explore the latest challenges and solutions in emergency care! Together with emergency department leaders from around the world, you will gain invaluable training for improving your emergency department.

Topics Covered:

- Establish the ED's role within the hospital
- Improve efficiency and control costs
- Addressing overcrowding
- Develop quality improvement programs
- Educate and motivate a new generation of emergency physicians and nurses
- Form a strong administrative structure

The topics included in the Leadership Essentials Course are subject to change and are updated based on feedback from course participants and faculty.

Certified Emergency Department Executive Certification | 3-5 November 2025

The Certified Emergency Department Executive (CEDE) Certification Course, is an interactive, three-day program designed to equip Emergency Department leaders with the skills to rapidly solve problems in high-pressure, time-sensitive environments. Participants will collaborate in teams to tackle real-world scenarios, assess available data, and present solutions to hospital leaders. Upon completion, attendees will earn the CEDE Certification, joining a global network of emergency department leaders committed to upholding a standard of excellence.

Course Eligibility: Open to alumni of the Leadership Essentials course who have passed the CEDE qualification exam.

Topics Covered:

- Risk management
- Overcrowding
- Quality of care
- Triage
- Staffing

Course Director

An application will be made to the EACCME®. Please check our website for updates.

Emergency Department Design | 8-9 November 2025

The Emergency Department Design course explores how design meets process to create successful, well-run emergency departments. Over two-days, the course holds active discussions among medical, administrative, and architectural professionals on contemporary thinking about designs that promote engagement with the patient, patient safety and comfort, and a high degree of efficiency. Case studies of effective ED design will be explored and attendees will complete a group project to put concept into practice.

Topics Covered:

- How to design an observation unit
- Conceptual aspects of design – How big? How is space divided?
- How design can support patient flow and throughput
- Designing staff work space and workstations
- Planning ahead: designing for the increasing age populations
- Case studies from across the globe

Course Director

Nancy Mannion, DNP, RN, CEN, FAEN, CEDE

Senior Consultant, Mass General Brigham Global Advisory, Mass General Brigham,
Department of International Emergency Medicine
President, NMB Global Leadership, LLC

Point-of-Care Ultrasound Essentials and Program Administration | 8-9 November 2025

This two-day immersive course is designed to equip healthcare leaders with essential skills in Point-of-Care Ultrasound (POCUS) and ultrasound program management. Whether you're new to POCUS or want to deepen your expertise, you'll gain hands-on experience in core applications like cardiac, lung, and abdominal imaging. Learn how to integrate ultrasound into patient care, improve diagnostic accuracy, and ensure procedural safety. Additionally, explore how to design and manage a sustainable ultrasound program, covering topics such as credentialing, quality assurance, and program integration. With expert instructors and a 4:1 student-to-faculty ratio, this course offers practical skills to elevate your practice.

Topics Covered:

- Fundamentals of image acquisition, interpretation, and clinical integration.
- Key strategies for program development, credentialing, quality assurance, and integration within your healthcare institution.
- Challenges and best practices for equipment acquisition, training protocols, and compliance with accreditation standards.

Course Director

Andrew Liteplo, MD

Chief of the Division of Emergency Ultrasound, Mass General Brigham
Associate Professor of Emergency Medicine, Harvard Medical School

An application will be made to the EACCME®. Please check our website for updates.
