Introduction

Advanced Therapies Europe is dedicated to creating change through education and collaboration, offering advanced therapies professionals currently working in Europe, as well as those looking to enter the European market, the platform to meet and partner with fellow pioneers.

We're not afraid to start the difficult conversations needed to be had to face the current EU & UK challenges. By bringing together a varied audience comprised of key industry thought-leaders across the European market, we have an opportunity to spark change through innovation. Be part of the movement and join us in 2023's new Portuguese location, Estoril.

Why Advanced Therapies Europe?

- It's the destination for those wanting to tackle the challenges, explore the opportunities, and discover the latest innovations, all within Europe and the UK
- Over 100 of Europe's and the UK's most innovative biotech attend in search of collaborative discussions and valuable long-term partnerships
- The event offers companies the opportunity to place their brand directly under the nose of key decision makers from across Europe and the UK
- 30+ content sessions dedicated to opening conversations towards change and future growth
- Hosted in Portugal the event remains to be European centric and is easily accessible from other European cities
- Numerous themed networking opportunities to meet fellow attendees and increase your advanced therapy network

Welcome

“

It's my pleasure to welcome you to learn more about Advanced Therapies Europe, taking place this year in Estoril, a charming town nestled along Portugal's southern shore. Advanced Therapies Europe will bring together the leading experts, innovators, and investors in the field, providing a unique platform to discuss the latest advancements and challenges in what we know to be a fast evolving space.

Estoril, near Portugal's capital Lisbon, has a rich history, thriving biotech community, and breath-taking views, providing a natural setting for the event. The agenda is packed with high-level sessions, workshops, and networking opportunities, allowing you to explore the full potential of cell and gene therapies in Europe, connect with your peers, and stay ahead of the curve. I am confident that this year's event will serve as a catalyst for the growth of the cell and gene therapy industry in Europe and beyond. Join Phacilitate in Portugal and be part of the future of healthcare!

”

Agenda at a Glance

Pre-Day - 5 September 2023

17:30-19:00

CHAMPAGNE WELCOME RECEPTION

Please note the **registration desk** and **conference sessions** will **not be open** on this day. The exhibition hall will be open for sponsor/exhibitor set-up only.

Agenda at a Glance

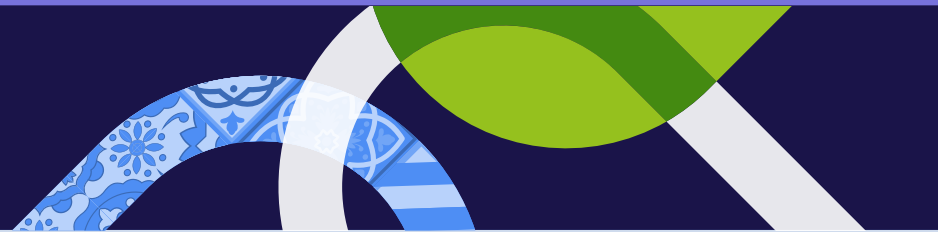

Day 1 - 6 September 2023

08:00am-09:00am	Morning Briefing			
09:00am-10:30am	Opening Plenary			
	Keynote Address			
	Panel - Thriving or Surviving: An Analysis of the Advanced Therapies Landscape in Europe Chair Introduction			
	Structured Debate - The Cost On A Cure - Do The Results Justify The Price? Chair Introduction			
10:30am-11:00am	Morning Refreshment & Networking Break			
	Commercialisation of Next Generation Advanced Therapies	Manufacturing, Supply Chain & Logistics	Patient Perspectives & Priorities	Investing in Innovation
11:00am-12:30pm	Contextualising Digitalisation Through Data & Analytics	Decentralising Cell Therapies: How Plausible is Point-Of-Care, and How Do We Get There?	Accelerating Cell & Gene Therapeutic Success Through Healthcare Providers and Patient Buy-In	Examining Risk: Differing CGT Funding Strategies Within Europe, the US & Asia

12:30pm–13:30pm	Lunch Briefing			
Lunch & Networking				
Women in Advanced Therapies (WIAT) Roundtable				
	Commercialisation of Next Generation Advanced Therapies	Manufacturing, Supply Chain & Logistics	Patient Perspectives & Priorities	Investing in Innovation
13:30pm–15:00pm	A CGT Retrospective: Best Practice & Evidence Generation for Pricing, Reimbursement & Regulatory Approval	Progressing MSAT: Exploring Development, Standards & Standardisation to Ensure Manufacturing Technologies for Commercial Production	The Genesis and Implementation of Labeling Standards to Ensure Patient Safety for CGT Therapies	Partnering for Innovation: Biotech & Pharma in the Era of Cell & Gene Therapy
	EU Health and Technology Assessment Regulations: Pricing & Reimbursement of Novel Therapeutics in Europe			
15:00pm–15:30pm	Afternoon Refreshment & Networking Break			
15:30pm–17:00pm	Cross Country Collaboration for Reimbursement & Across Market Access	Scaling Up Your Manufacturing & The Capacity Crunch - How Are We Making Room for the Therapies of the Future?	Developing New Approaches to Clinical Data & Evidence Generation to Demonstrate Initial Benefit & Support Long Term Follow Up	Exploring Alternative Funding Opportunities for Dilution Limitation, Accelerated Commercial Transactions & Value Creation
17:00pm	Networking Drinks			

Agenda at a Glance

Day 2 - 7 September 2023

08:00am–09:00am	Morning Briefing			
09:00am–10:00am	Roundtable Discussions 			
	Roundtable 1	Roundtable 2	Roundtable 3	Roundtable 4
	Optimising CGT Processes & Tech Transfer for Manufacturing Excellence	Sourcing and Regulation with your iPSC Therapeutic	Timing and Logistic Challenges of Getting Products to Patients Better?	Defining the Future of Cell Therapy Automation
	Roundtable 5	Roundtable 6	Roundtable 7	Roundtable 8
	Shifting the Paradigm: Inclusivity & Diversity Within Clinical Trial Design	Editing A Cure: Overcoming Safety & Efficiency Hurdles Within Gene Editing & Base Editing	Patient and Public Perspectives as a Barrier to Adoption of Cell and Gene Therapies	Viability & Variability: Raw Material Challenges
	Roundtable 9	Roundtable 10		
	Quality by Design: QA, QC Within CMC	Overcoming Analytical Challenges for Viral Vector Production		

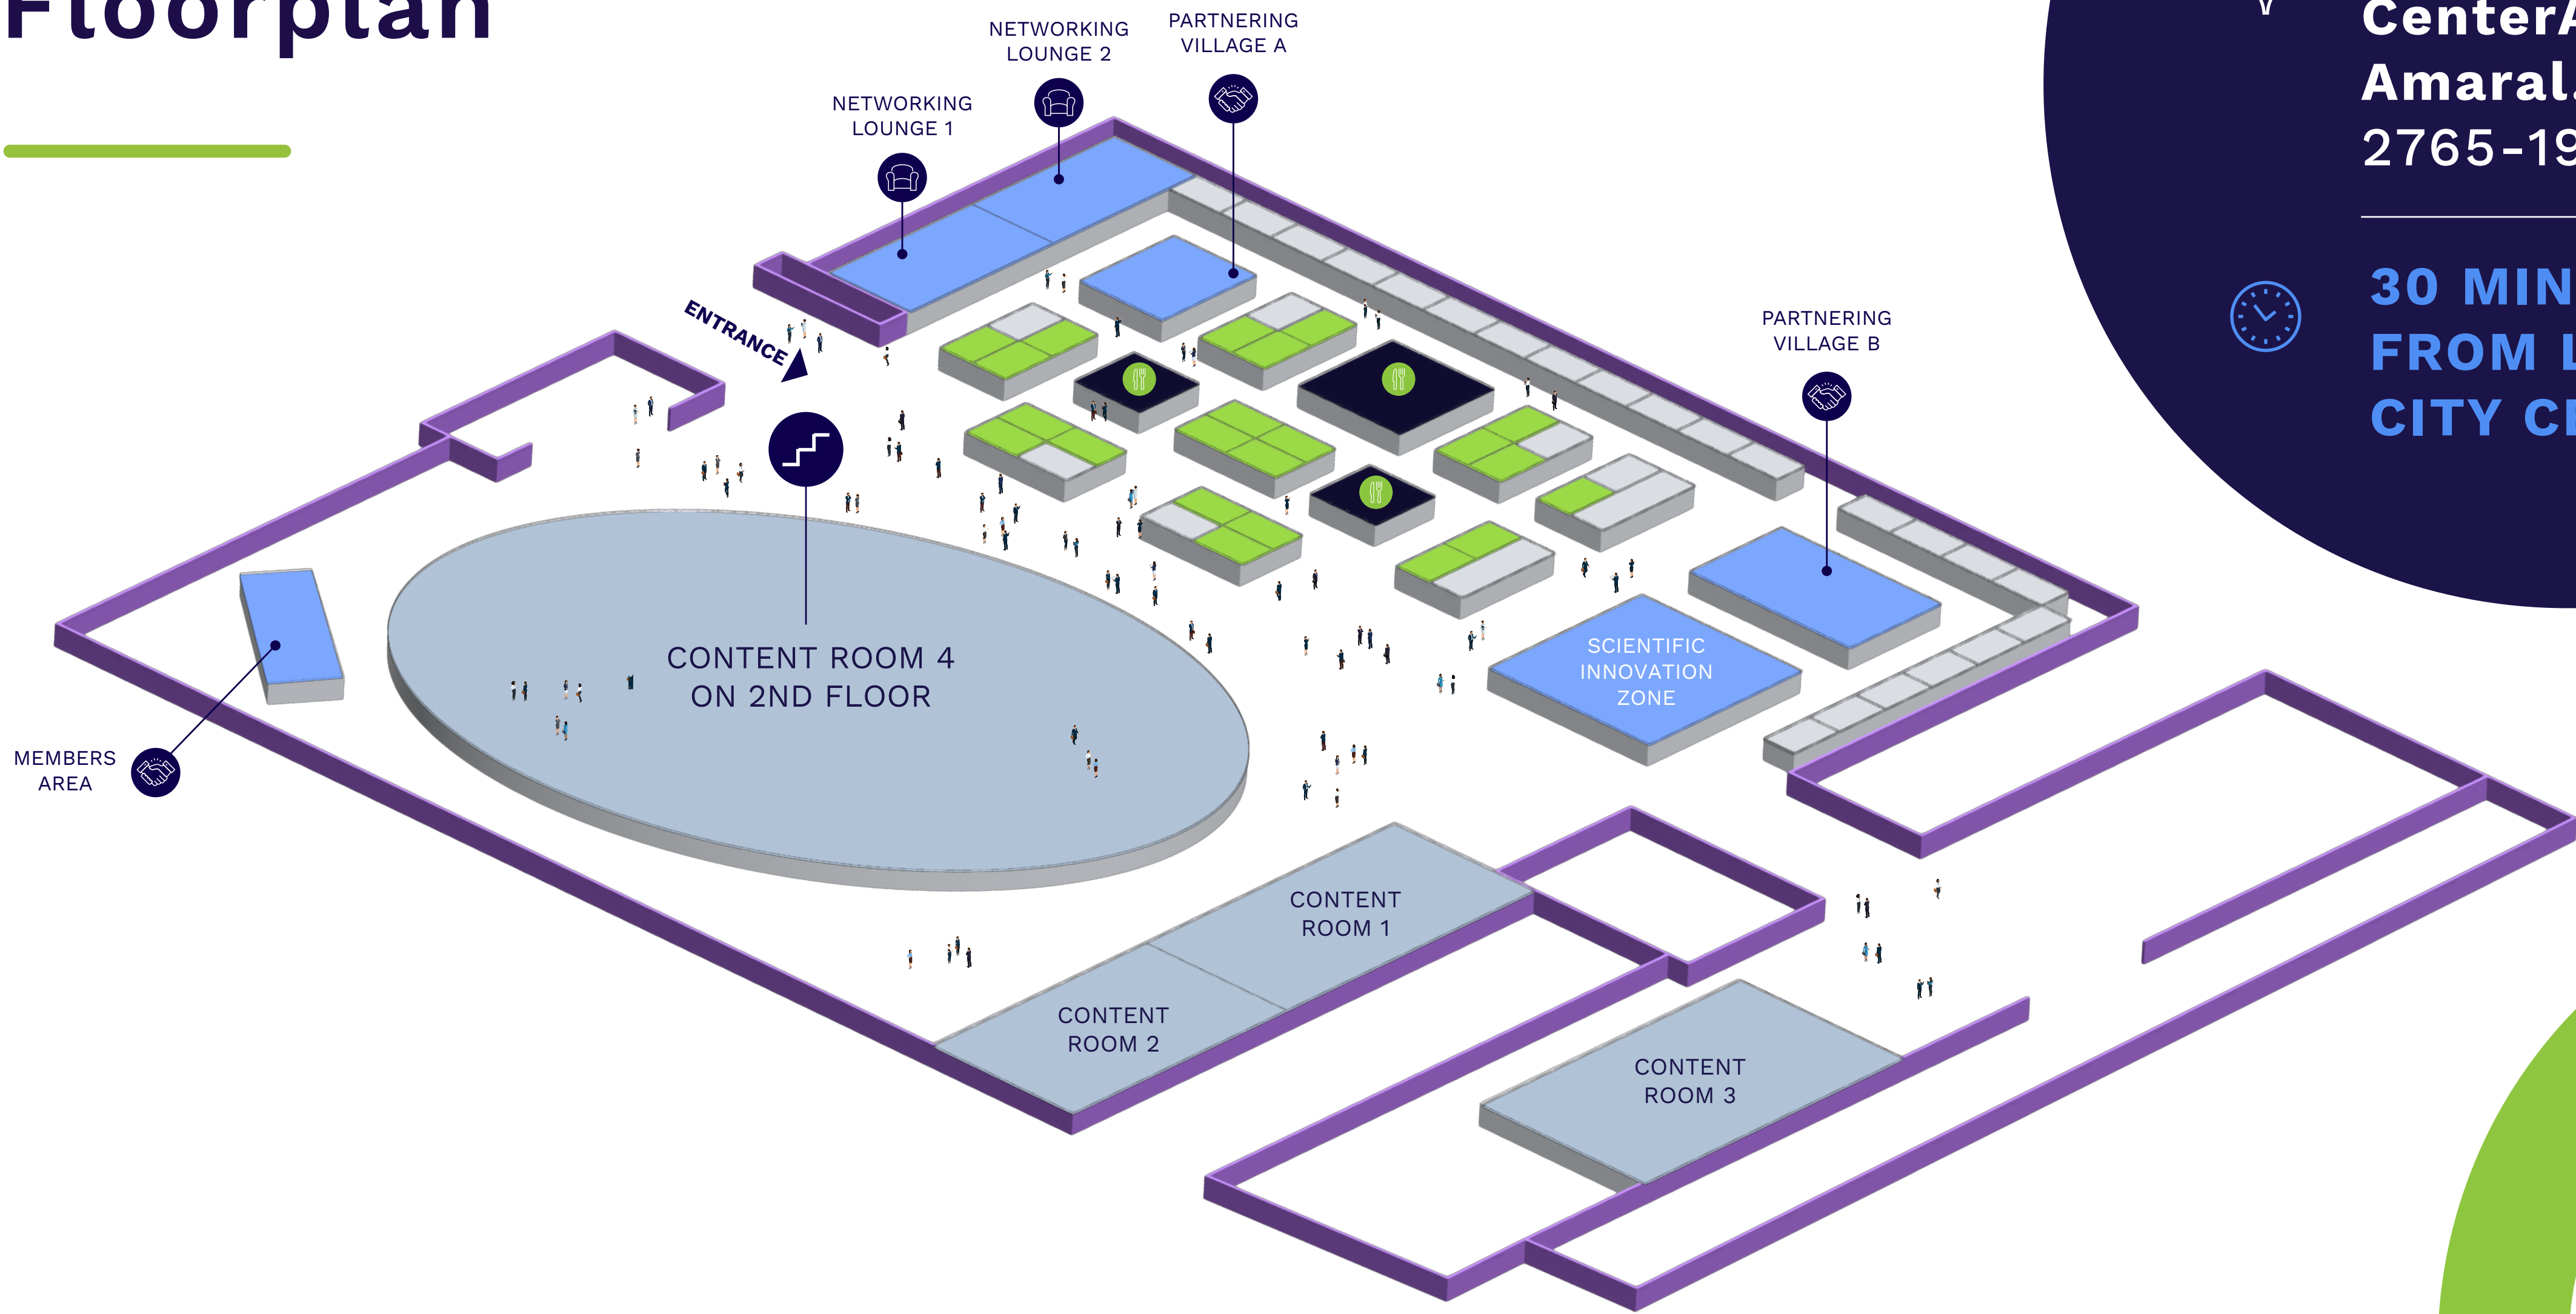

10:00am–10:30am	Morning Refreshment & Networking Break			
	Commercialisation of Next Generation Advanced Therapies	Manufacturing, Supply Chain & Logistics	Developing the Therapeutics of the Future	Automation
10:30am–12:00pm	Innovative Technologies as a Driver of European CGT Commercialisation & Successful Market Adoption	Addressing Viral Vector Manufacturing Challenges From Development to Commercialisation	The Age of Allo - Developing Donor - Derived Therapies With Safety and Efficacy in Mind	Defining Automation & Building a Strategic Approach to Adoption at the Earliest Stages
12:00pm–13:00pm	Lunch Briefing			
Lunch & Networking				
Women in Advanced Therapies (WIAT) Roundtable				
	Commercialisation of Next Generation Advanced Therapies	Manufacturing, Supply Chain & Logistics	Developing the Therapeutics of the Future	Automation
13:00pm–14:30pm	Starting with the End in Mind: Translating R&D to Clinical and Commercial Products	Bioprocessing 4.0: Monitoring, Control and Effective Integration for Improved Quality	Ensuring the Continued Development and Application of Autologous Therapies Through Long Term Durable Effect & Demonstration of Disease Modification	Supply Chain Automation & Orchestration

14:30pm–15:00pm

Afternoon Refreshment & Networking Break

	Commercialisation of Next Generation Advanced Therapies	Manufacturing, Supply Chain & Logistics	Clinical Challenges & Successes	Automation
15:00pm–16:30pm	CAR-T & Beyond: Future Cell Based Immunotherapeutic Strategies	Preservation, Logistics & Distribution of Product to Ensure High Quality Therapeutics	Gene Therapies: Critical Considerations for Developing the Transformative Genetic Medicine of the Future	Closed Manufacturing Developments to Improve Consistency & Purity Whilst Lowering Manufacturing Cost
16:30pm	Close of Event
