A Sample of Our 2021 Speakers & Special Events

ADVANCED CONCEPTS IN RESTORATIVE DIRECT AND INDIRECT DENTISTRY

Dr. Lou Graham is an internationally recognized lecturer extensively involved in continuing education for dental professionals. His lectures focus on incorporating current clinical advancements through "conservative dentistry." He emphasizes the same concepts he practices: dental health diagnosis, treatment plans for medically compromised patients, cosmetic dentistry, and customized approaches to periodontal care, implants and laser dentistry.

THE MENTAL DENTAL CONNECTION

Dr. Josh Austin operates a full time restorative dentistry private practice in San Antonio, Texas. He is an editorial director and columnist for Dental Economics focusing on dental products and technology. Dr. Austin lectures around the country to study clubs and dental meetings about these topics along with online reputation management and social media.
