A partnered project between the College and four (4) ACFAS Regions is bringing something special to your area across the nation. The ACFAS will present a series of four hands-on *Refining High Frequency Forefoot Surgery Workshops and Seminars* to provide practicing and in-training surgeons the opportunity to enhance learned skills and advance their current knowledge of surgical practice.

Each program will begin on Friday evening with a presentation on “**Common Forefoot Surgical Complications - How to Deal with Them and How to Avoid Them**”, followed by case studies. Participants, please bring work cases to share. Saturday will provide a full day schedule of succinct lectures followed by hands-on workshops.

Labs will include a variety of products from multiple manufacturers. Panel discussions offer opportunities to challenge the course faculty and review problematic cases.
