

SOUTHERN ACADEMY OF PERIODONTOLOGY

JOIN US FOR OUR **2025 WINTER SEMINAR**

January 24 & 25

1-5PM FRIDAY, 8AM-5PM SATURDAY

FEATURED Speakers:

FADI HASAN
DDS, MSD, DABP

Dr. Hasan is a specialist in the field of Periodontology and Dental Implant surgery. He received his Bachelor of Dental Surgery from University of Baghdad in 2007 and his DDS from the University of Colorado in 2011.

Dr. Hasan completed his Periodontics residency at the Virginia Commonwealth University (VCU) with a Master of Science in Dentistry. He then achieved Board certification from the American Board of Periodontology and Dental Implant Surgery.

Dr. Hasan has published been published in peer-reviewed papers:

- Characterization of L-PRF: Published in Journal of Visual Experiments, 2015.
- Alveolar Ridge Expansion by Osseodensification-Mediated Plastic Deformation and Compaction Autografting: A Multicenter Retrospective Study: Published in Journal of Implant Dentistry, 2019.
- Lighting in Dental Photography- ITI Forum Implantologicum ,May 2023
- Managing Implants that are positioned too far facially. A perio-prosthetic approach to treating complications and improving aesthetics. Inside Dentistry, November 2023

He currently holds a position as an Assistant Clinical Professor at VCU Dental School, Department of Periodontics and Guest Speaker at the Washington hospital center, oral and maxillo-facial department.

Dr. Hasan is also the co-founder of Perio Amigos which focuses on advanced Hard & Soft tissue courses for implants and teeth.

HUSSEIN BASMA
DDS, DESS, MS

Following his dental degree at UCONN, and periodontal Dr. Hussein Basma received his Doctor of Dental Surgery from Damascus University in 2009. Dr. Basma completed a residency in Prosthodontics at Lebanese University and received a Certificate in Periodontology and Master of Science from the University of Alabama at Birmingham (UAB).

Dr. Basma is an Assistant Professor in the Department of Periodontology at UAB. He is a Diplomate in the American Board of Periodontology and lectures nationally and internationally about periodontology and implant dentistry. Dr. Basma has authored numerous peer-reviewed scientific articles and abstracts. His teaching and clinical research efforts focus on bone augmentation, full-arch rehabilitation, multidisciplinary care, and integration of technology to improve patient outcomes.

DENTAL IMPLANTS AND SOFT TISSUE GRAFTING IN THE ESTHETIC ZONE

12 Hour CE Lecture, Subject Code 690

COURSE DESCRIPTION

Implementing digital technology in replacing missing teeth in the aesthetic zone has become a focal point in contemporary implant practice. However, to predictably achieve optimal outcomes, understanding of both biological concepts and digital workflows is crucial. Initial treatment planning with such concepts at the forefront allows for practitioners to deliver care that is ideally prosthetically driven and biologically executed. Such an approach results in an esthetic final restorative outcome that can be maintained in health by developing ideal soft tissue thickness and contour. Several techniques and materials may be utilized for successful soft tissue augmentation at implant sites to enhance esthetics and peri-implant health. This presentation course seeks to highlight the need to implement evidenced-based periodontal treatment protocols coupled with the integration of digital technology and soft tissue grafting to achieve favorable dental implant outcomes.

LEARNING OBJECTIVES

Upon completing this course, attendees will:

- Learn about the advantages of digital versus analog protocol when making surgical guides, provisional restorations and final prosthesis.
- Critically evaluate various provisional restoration options, including dental implant emergence profile and pontic site development
- Discuss the principles of immediate implant placement and loading protocols
- Understand the rationale and best practices for mucogingival procedures to optimize esthetic and oral health outcomes for immediate and delayed implant placement
- Assess possible surgical and prosthetic pitfalls and complications and potential strategies to avoid and repair such outcomes.

Southern Academy of Periodontology is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from 3/1/2022 to 2/28/2025. Provider ID# 374030

Phone: 910-409-5499 • Fax: 941-894-6166 • Email: saped@icloud.com

REGISTER TODAY for our 2025 Winter Seminar

Marriott City Center | Charlotte, NC
January 24 & 25, 2025

ROOM RESERVATIONS:

Marriott City Center

100 W. Trade Street | Charlotte, NC 28202

www.marriott.com

1-800-228-9290 or 704-333-9000

The Southern Academy **room rate** is **\$199/night** from 1/23/25 - 1/26/25. Please request the Southern Academy rate when making reservations. The **cutoff for the discounted room rate is Friday, January 10, 2025** or when the room block is sold out.

Complete biographies and course descriptions can be found at www.periosouth.net.

ANNUAL MEETING REGISTRATION FORM

Name: _____ Email: _____

Phone: _____

Guest/Staff: _____

1PM-5PM Friday and 8AM-5PM Saturday

TYPE	Regular Registration	Early Registration through 1/10/25
SAP and NCSP Members	\$695	\$595
Guest Practitioner accompanied by a SAP or NCSP member	\$625	\$495
Staff of SAP or NCSP member	\$425	\$325
Non-Member Periodontist	\$950	\$850
Graduate Director or 3rd year Resident	\$200	N/C
1st or 2nd year Resident	\$325	\$225

Register at www.periosouth.net or complete this form and return with remittance in full to:

The Southern Academy of Periodontology, 801 Royal Bonnet Ct., Wilmington, NC 28405

Cancellation Policy: Prior to January 10, 2025, \$50 service fee. There are no refunds for cancellations after January 10, 2025.

Phone: 910-409-5499 • Fax: 941-894-6166 • Email: saped@icloud.com
