Continuing dental education
program sponsored by

NYU College of Dentistry

Overview

This comprehensive three-day course has been designed to provide an update of the full scope of the specialty of oral and maxillofacial surgery by recognized leaders in their respective fields. Content will include recent advances and new approaches to patient evaluation and treatment. The information presented will be current, evidence-based and clinically relevant and supported by case discussions and simulations to illustrate the salient points of the didactic presentations.

Target Audience

This course is intended for the practicing oral maxillofacial surgeon or the current oral maxillofacial surgery resident seeking to enhance their knowledge of all aspects of the specialty. For surgeons who are interested in gaining the most up-to-date information in the specialty this course will be informative and very interactive.

Professional Practice Gaps

Surgeons need to understand the strengths and weaknesses of current and innovative treatment options; patient evaluation, timing and sequencing of surgical interventions; reconstruction, fixation, distraction, and biomaterials choices; prevention and management of the patient preoperatively, and postoperative complications; and new technologies related to oral maxillofacial surgery.

Assessment of Need

New York University College of Dentistry's comprehensive Oral and Maxillofacial Surgery Course provides an opportunity to gain the knowledge of recent advances in patient evaluations and treatment necessary to provide quality care to patients requiring oral and maxillofacial surgery.

Methodology-Format

This educational activity is highly interactive and allows participants to engage in thoughtful discussion. Case presentations and interaction with faculty to gain a perspective of the advancements in oral and maxillofacial surgery is one of the highlights of the course. Podcasts and an electronic syllabus provide information for further review and reference.

Educational Grant

Pfiedler Enterprises gratefully acknowledges the commercial support from companies listed below. All support is managed in accordance with the ACCME Guidelines and Standards of Commercial Support. **Stryker**

In-Kind Support: None

Course Objectives

Upon completion of this course, the attendee should be able to:

1. Discuss the impact of systemic diseases in the field of maxillofacial surgery and apply to evaluation and patient management strategies.
2. Develop criteria for the use and administration of ambulatory sedation and general anesthesia in order to establish best practices.
3. Explain differential diagnosis and a treatment plan for odontogenic and non-odontogenic pathologic conditions of the maxillofacial region.
4. Select treatment options for maxillofacial reconstruction based on patient evaluation.
5. Develop a comprehensive evaluation of a trauma patient and identify approaches for treatment and options for managing post-operative pain.
6. Discuss methods for evaluating and treating patients with dentofacial deformities and head and neck infections to improve outcomes.
7. Identify the etiology and microbiology of infections of the maxillofacial region and treatment strategies.
8. Identify the etiology, patterns and frequency of cleft lip and palate deformities and the treatment based on criteria discussed.
9. Discuss the assessment of dentoalveolar surgical treatments and apply methods of preventing complications and patient management to improve outcomes.
10. Evaluate and develop criteria for facial esthetics and apply various surgical approaches.
11. Discuss algorithms for temporomandibular disorders and the treatment based on comprehensive examination and clinical findings.
12. Describe a strategy to evaluate patients requiring pre-prosthetic surgery and implants based on indications and contraindications of placement of dental implants.

Tentative Schedule

Friday, August 12, 2016

7:00 am	Registration and Breakfast
7:15 – 10:45 am	Maxillofacial Infections/Complications of Dentoalveolar Surgery
10:50 – 3:00 pm	Orthognathic Surgery/OSA/Cleft Lip and Palate/ Craniofacial Syndromes
3:05 – 7:00 pm	Surgical Pathology and Reconstruction

Saturday, August 13, 2016

7:00 am	Breakfast
7:15 – 10:45 am	Surgical Treatment of TMJ Disorders
10:50 – 3:00 pm	Implants/Pre-Prosthetic Surgery
3:05 – 7:00 pm	Trauma

Sunday, August 14, 2016

7:00 am	Breakfast
7:15 – 10:00 am	Anesthesia Update and Sedation Emergencies
10:05 – 1:00 pm	Facial Esthetic Surgery
1:00 pm	Evaluation/Adjourn
