Expanding the boundaries of cardiovascular medicine

The three renowned cardiovascular societies bring together the latest in cutting-edge cardiovascular science, with an Asia-Pacific focus.

It features key presentations from ESC Congress, review the latest **ESC Clinical Practice Guidelines in a regional clinical context**, and highlight essential **best practices to support Asian clinicians**.

The programme includes sessions covering **the entire spectrum of cardiology** (prevention, imaging, arrhythmias, heart failure, intervention and much more) with **international experts**, plus leading industry stakeholders.

Save the dates in your agenda for ESC Asia 2022 with APSC and AFC from 1 to 3 December in Singapore.

Call for science and registration services will open early July.
