

Non-CME programs in selected cities across the United States

REGIONAL SUMMIT SERIES ON BREAST CANCER

JUNE 22, 2019 | PASADENA, CA

KEY OBJECTIVES

- Review optimal management and standards of care for triple negative, ER (+), and HER2 (+) breast cancers.
- Discuss the evolving role of genetic alterations and their effects on the management of different types of breast cancer.
- Examine newly approved targets in tumor development and growth.
- Assess current CDK4/6 and PARP inhibitors and the rationales for combining these inhibitors with other therapies.
- Explore the utility of immunotherapy and their combinations for personalizing treatment.
