**SIMPLIFYING
HAND SURGERY**

Welcome Message

The 41st Annual Conference of Indian Society for Surgery of the Hand, ISSHCON 2017, will be held in the city of Mumbai. Team Mumbai is working full throttle to make this event a memorable academic experience, while carefully ensuring to adhere to the theme of 'Simplifying Hand Surgery'. With the knowledge base and experience available in the field of hand surgery it is time to channelise the protocols of Management of upper extremity problems. It is important to recognise that hand surgery is a field by itself and not a subset of Plastic Surgery or Orthopaedic Surgery. ISSHCON 2017 promises to showcase this emerging scenario by choosing the topics and speakers which must appeal to a Hand Surgeon irrespective of his / her basic training.

Team Mumbai invites you to be with us on 21st, 22nd, 23rd September 2017 and we assure you a hospitality that will be at par with the academic experience.
