

Hotel Solamar is a celebration of sun and sea in downtown San Diego. It is also a Kimpton boutique hotel that reflects its dynamic Gaslamp District location. The hotel is centered in one of San Diego's most vibrant neighborhoods, one block from PETCO Park, two blocks from San Diego's trolley, and surrounded by an amazing collection of cultural and leisure attractions.

Stay fit at Hotel Solamar's complimentary 4th floor fitness room or do some laps in the heated outdoor pool. Enjoy complimentary evening wine hour featuring complimentary organic morning coffee and tea service in the lobby living room. Deluxe guestrooms include 1 King or 2 Queen beds (based on availability), LCD flat screen television, plush linens, Gilchrist & Soames bath amenities, laptop friendly safe, fully stocked honor bar, yoga mat, and more. Take part in the wellness programs, take a free bike out for a spin around town, or relax with an in-room spa service. Delight in the hosted SoCal hour each evening that features local brews and Kimpton's traditional wines.

Adjacent to Hotel Solamar, Jsix is a bustling restaurant featuring California Coastal cuisine inspired by the freshest of seafood, artisan produce, and ingredients from nearby farms. LOUNGESix, located on the rooftop deck of the hotel, is a tropical urban oasis overlooking downtown San Diego and the bay. Hotel Solamar is located just three miles from the San Diego International Airport.

COURSE DIRECTOR: **Mark T. Murphy, MD**, MSN Education, Austin, Texas, and Medical Director, Northwest Anesthesia Seminars, Pasco, Washington

TARGET AUDIENCE: This course is designed for physicians, certified registered nurse anesthetists, physician assistants, nurse practitioners, registered nurses and other medical care providers who must maintain state-of-the-art knowledge of the specialty or are impacted by it.

PROGRAM PURPOSE: The practitioner of anesthesiology must possess the scientific background for clinical practice; maintain state-of-the-art knowledge of not only the specialty, but also of all additional related disciplines which may impact it; maintain an up-to-the-minute armamentarium of knowledge and skills for the selection and use of complex equipment, pharmacological agents, and procedures necessary for the provision of quality patient care; manage self and colleagues to function toward common goals in the clinical setting, the clinical and educational institutions, and the community in which the practice resides; serve as an expert in matters involving health care delivery; serve as an informed manager of clinical and educational services provided, including the acquisition and distribution of resources necessary in meeting professional goals; and provide assistance with and support of other service providers, departments, institutions, and organizations dependent upon the professional expertise of the practitioner. Presentations are designed to facilitate the physician, nurse specialist, and other providers maintaining skills of the same kind to review and update knowledge and abilities in one or more of these areas vital to the practicing professional.

OBJECTIVES: At the conclusion of this activity, the participant will be able to:

Apply the pertinent physical and behavioral sciences—to include but not be limited to advanced anatomy and physiology, pathophysiology, chemistry, physics, psychology, and social sciences—as they impact and are affected by the planning, delivery, and monitoring of anesthesia and related services inherent in the anesthesia professions.

Explain the selection, dosing considerations with methods of administration, safe use, and contraindications and precautions of presented pharmacological agents through the understanding of their physicochemical properties, pharmacokinetics and pharmacodynamics, updated uses, and more recently developed additional, related, and similar drugs.

Outline comprehensive management plans for the group of patients discussed, whether related in age, physical status, cultural background, invasive procedure, anesthetic or analgesic requirements, clinical setting, adverse reactions, and/or goals of care.

Apply the principles of safety and asepsis in the performance of anesthetic procedures and administrations, equipment use, and other applications encountered during the provision of anesthesia and analgesia whether in the surgical unit, the labor and delivery suite, the pain management clinic, or other more remote location of anesthetizing services.

Incorporate the appropriate recommendations and/or requirements of pertinent external organizations, institutions, and professional groups—recognized as serving as the authority for and/or holding the responsibility to compile and approve such tenets—in the provision of anesthesia and related services, whether medical, legal, philosophical, ethical, or health care management standards.

Apply the new techniques in the clinical setting of the participant.

ACCREDITATION: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of The A. Webb Roberts Center for Continuing Medical Education of Baylor Scott & White Health and Northwest Anesthesia Seminars. The A. San Diego is a world-renowned vacation destination that is vibrant and refreshingly easy to navigate.

The region offers a host of attractions including the San Diego Zoo and San Diego Zoo's Wild Animal Park, SeaWorld San Diego, LEGOLAND California, Balboa Park (the nation's largest urban cultural park and home to 15 museums), Mission Bay (the largest man-made aquatic park in the country), and the USS Midway Museum to name a few.

In addition, the region is dotted with over 90 golf courses, including Torrey Pines (home of the 2008 U.S. Open). Enjoy numerous casinos, world class shopping and dining, and simple pleasures like a stroll along the bay front, a hike in a nature preserve, or a bonfire on the beach. With 70 miles of breathtaking beaches, spectacular mountains and deserts, there is plenty to see and do.

The Gaslamp District, named for the gas lamps that once lined the streets, is the place to be, boasting 94 historic buildings in the one-square-mile area. Victorian Era-themed, these distinctive buildings set the stage for the best dining, shopping, entertainment, and nightlife in town.

We have a block of rooms for seminar participants. Once this block is sold, rooms are based upon availability only and may be at a higher rate. To make reservations, please visit our website: www.nwas.com or call (800) 222-6927.
