The 22nd Annual Multidisciplinary Symposium on Breast Disease

Dear Colleagues:

This is indeed a pleasure to present to you the program of the 22nd Annual Multidisciplinary Symposium on Breast Disease, which will take place February 9-12, 2017 at the Ritz-Carlton® Amelia Island, Florida.

During the last two decades the symposium has provided a unique educational experience for those involved in breast health care. As an internationally recognized symposium, we have been fortunate to attract the most highly respected speakers to participate in the symposium every year. Once again the University of Florida is excited to partner with Cedars-Sinai Medical Center in California. We believe that by combining the expertise of our world-class institutions, we will be able to provide an expanded program, covering many new exciting topics related to multidisciplinary breast health.

The program is designed to offer several one-day and half-day pre-symposium workshops, plenary sessions, case presentations and panel discussions with active participation of the audience. The speakers are recognized authorities in their specialties, with experience in presenting the most controversial aspects surrounding the spectrum of benign, premalignant and malignant breast lesions.

In addition, we are fortunate to have Dr. Mina Bissell to serve as our keynote speaker. Dr. Bissell is the Distinguished Scientist, of the Division Biological Systems and Engineering at Lawrence Berkeley National Laboratory in California and the most celebrated authority in breast cancer research. As the recipient of numerous prestigious awards, Dr. Bissell has held leadership positions in various national and international organizations and is definitely an outstanding keynote for our 2017 breast symposium. In addition, we are fortunate to have Dr. Judith Salerno the President and CEO of the Susan G. Komen® who will be delivering the closing remarks on Sunday, Feb. 12th.

As always the symposium will take place over Valentine's Day weekend in one of the most beautiful resort locations in Florida. Please join us to celebrate the 22nd anniversary of our symposium.

We look forward to seeing you in February 9-12, 2017!

Pre-Symposium Workshops

Thursday, February 9, 2017

07:30 a.m. – 05:00 p.m.

Symposium Registration

Pre-Symposium Workshop #1:

Advances in Breast Surgery and Reconstruction-An Interactive Course

Charles E. Cox, MD, Risal Djohan, MD, Stephen R. Grobmyer, MD, Suzanne Klimberg, MD, Michael Sabel, MD, Freya Schnabel, MD and David Weintritt, MD

09:00 a.m. – 09:20 a.m.

Cryoablation for Breast Cancer and Other Lesions

Michael Sabel, MD

09:20 a.m. – 09:40 a.m.

Radiofrequency Ablation for Surgical Margins

Suzanne Klimberg, MD

09:40 a.m. – 10:00 a.m.

New Approaches to Reducing Lumpectomy Re-Excision Rates

Freya Schnabel, MD

10:00 a.m. – 10:20 a.m.

Radiofrequency Chip Guided Surgery: A Safe Alternative to Wires?

Charles E. Cox, MD

10:20 a.m. – 10:30 a.m.

BREAK

10:30 a.m. – 10:50 a.m.

Alternative and Adjunctive Methods in Breast Reconstruction (Pre-PectBreast Implant and Fat Grafting)

Risal Djohan, MD

10:50 a.m. – 11:10 a.m.

Magnetic Technology for Lesion Localization and Sentinel Node Identification

Charles E. Cox, MD

11:10 a.m. – 11:30 a.m.

Intra-Operative Radiation Therapy for Breast Cancer

Stephen R. Grobmyer, MD

11:30 a.m. – 11:50 a.m.

Panel Discussion - Charles E. Cox, MD, Risal Djohan, MD, Stephen R. Grobmyer, MD, Suzanne Klimberg, MD, Michael Sabel, MD, and Freya Schnabel, MD

11:50 a.m. – 01:00 p.m.

LUNCH

01:00 p.m. – 01:20 p.m.

Axillary Reverse Mapping

Suzanne Klimberg, MD

01:20 p.m. – 01:50 p.m.

Identification of Breast Sentinel Node and Biopsy with ICG Fluorescent Imaging

David Weintritt, MD

01:50 p.m. – 02:20 p.m.

Complex Breast Reconstruction in Patients Having Adjuvant RT and New Concepts in Wound Management

Risal Djohan, MD

02:20 p.m. – 02:40 p.m.

Panel Discussion – Risal Djohan, MD, Suzanne Klimberg, MD, and David Weintritt, MD

02:40 p.m. – 02:50 p.m.

BREAK

02:50 p.m. – 04:50 p.m.

Hands on Session

Station 1: IORT

Stephen R. Grobmyer, MD

Station 2: Application of Negative Pressure Wound Therapy for Breast Wounds

Risal Djohan, MD

Station 3: Fluorescent Imaging

David Weintritt, MD

Station 4: Percutaneous Tissue Perfusion Measurement and Monitoring

Risal Djohan, MD

Station 5: Dermal Matrix and Fat Graft in Breast Reconstruction

Risal Djohan, MD

Station 6: Breast Tissue Expander and Implants

Risal Djohan, MD

Station 7: Liposomal Bupivacaine Injection

Risal Djohan, MD

Station 8: Endomagnetics

Charles E. Cox, MD

Station 9: Radiofrequency Ablation

Suzanne Klimberg, MD

Station 10: Radiofrequency Chip Localization

Charles E. Cox, MD

Station 11: Margin Probe

Freya Schnabel, MD

Station 12: Cryoablation

Michael Sabel, MD

Symposium Description

The symposium provides a multidisciplinary overview of the diagnosis and treatment of all stages of breast cancer. Faculty includes experts in the fields of surgical, medical and radiation oncology, pathology, radiology, surgery, psychology, reconstructive surgery and patient advocacy. The target audience includes clinicians, specialists, health care providers and scientists involved in the care and treatment of patients with breast cancer, as well as research and education concerning this important disease.

Objectives

Upon completion of this course, participants should be able to:

- **Review** controversies regarding under and over diagnosis
- **Review** controversies surrounding breast cancer screening
- **Identify** molecular markers as prognostic and predictive tools
- **Outline** strategies for preservation of fertility and pregnancy in young women post-treatment
- **Assess** the contribution of multi-modality breast cancer screening and imaging techniques and technologies, including traditional and contemporary breast imaging.
- **Discuss** the complications of breast cancer in elderly patients
- **Describe** risk assessment tools to identify high-risk patients
- **Recognize** the challenges and advantages of nipple-sparing mastectomy
- **Review** concepts in evaluating genomic assays as risk predictors
- **Discuss** the current status of intraoperative radiation therapy
- **Review** the issues surrounding chemoprevention and risk reduction modalities
- **Discuss** the post breast cancer symptom management

CME Accreditation and Credits

Accreditation: This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Florida College of Medicine and Cedars-Sinai. The University of Florida College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Credit: The University of Florida College of Medicine designates this live activity for a maximum of 24.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Location

Amelia Island, with the historic, picturesque town of Fernandina Beach, is a hidden pearl at the tip of the South's barrier islands. Surrounded by waters teeming with fish, this deepwater port is still home to one of America's first shrimp fleets. The tranquil beauty of gnarled oaks and heron-guarded ponds flank some of America's top-rated fairways. Picturesque shops are a treasure-trove of antiques and fashion. Fine restaurants bring the sea's fresh harvest and other gourmet delights to your table. Ride a horse on the beach, work out on the tennis court, then cool down in indigo waters that invite sailing, surfing and angling.

Accommodations for Disabilities or Special Requests, including Dietary

Please notify the UF CME Office a minimum of ten working days prior to the conference so that adequate consideration may be given to your request. Special Dietary restrictions should also be submitted in advance.

Abstracts

INSTRUCTIONS:

ABSTRACTS must be received by **Friday, January 20, 2017** and should be uploaded to [Abstract Submission](http://msbd.cme.ufl.edu) – <http://msbd.cme.ufl.edu>

All accepted abstracts will be considered for “**The Breast Journal Award**,” with notification of winners in late January. The three recipients of this award will be asked to give an oral presentation during the luncheon on **Saturday, February 11th**. Cash prizes will be awarded. Award recipients will receive a one-year complimentary subscription to *The Breast Journal*. The award is sponsored by Wiley, publisher of *The Breast Journal*.

Abstracts should be submitted as a Word document and should contain 350-500 words.

Title is in all capital letters, flush with left margin. Type last name followed by initials. Include names of all authors, their institutional affiliations, cities, states and zip codes. Mark the presenting author with an asterisk.

Title should include significant words that reflect the content of the abstract. Abstracts should adequately describe the objectives and results of the research. **Each abstract should contain (a) Introduction; (b) Description; (c) Summary; and (d) Conclusion.**

Abbreviations may be used in the abstract text if defined. Spell out the term in full at first mention and follow with the abbreviation in parentheses.

At least one of the authors must register and attend the Symposium. The email submitted with the abstract must include the full name, credentials, mailing address, email address and phone number of the author designated to present the abstract, if the abstract is selected for a Breast Journal Award.

Acceptance Letters and guidelines for presenters will be sent to the presenters in late January.

Inquiries concerning preparation, submission or acceptance of abstracts should be directed to Karen Earick at (904) 244-6069 or karen.earick@jax.ufl.edu
