

2nd International Conference on

Food Science & Nutrition

24-25
OCTOBER, 2019

-: Theme :-

Food: Just what your body needs

About Conference

We are glad to announce the “2nd International Conference on Food Science & Nutrition” scheduled on 24-25 October, 2019, Valencia, Spain. The conference is organized by Colloquium LLC in collaboration with generous support and cooperation from enthusiastic academicians and Board Members. This conference is an ideal platform that’s a confluence of all stake holders of the ecosystem –Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Food Science, Food Technology, Food Safety and Management, Food Beverages, Food Microbiology, Food and Economy, Nutrition, Nutraceutical and Nutrition Supplements, Clinical Nutrition, Malnutrition and Undernutrition, Dieticians and Nutritionists, Obesity and Public Health Research and will be available to discuss with you the latest issues and trends in Overcoming Milestones towards ” Food: Just what your body needs”.

As an International event, we have designed the program with your interests keeping in mind. You will have the opportunity to network with other colleagues from across the world. The conference will focus on major sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

The conference aims at bringing together all the food technologists, food professors, young researchers, students, companies, industries under a single roof at the conference. It will highlight significant developments in research and innovations in food science, nutritional, pharmaceutical and medical technologies, with an emphasis on health and wellness

Attend our upcoming Food Science & Nutrition Conference that will help you to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

Food Science & Nutrition

Scope & Importance

Food Science is fundamentally an interdisciplinary program including science, microbiology and quality affirmation. The significance of Food Science and Quality Control lies in the way that it has the capacity to provide nourishment to our population through scientific preservations, wiping out avoidable losses and making accessible more adjusted and nutritious sustenance.

Food has turned into a high-profit industry by reason of the degree it offers for esteem expansion, especially with the nourishment preparing industry getting perceived in India as a high-need zone. Our rancher who should be the 'best saint' ends up being the 'best loser'. The desire for the present is the Food Technologist who can expand the estimation of our agricultural yield to a hundred fold.

Few Renowned **Speaker's** of our Previous Conference

Udaya Sanjeewa Kumara Rathnayaka,
Sabaragamuwa University of Sri Lanka,
Sri Lanka

Sara Eliasson
Chalmers University of Technology
Sweden

Lingwen Zeng
Wuhan Academy of Agricultural Sciences,
China

Elisa Pellegrino
, Institute of Life Sciences, Scuola Superiore Sant'Anna,
Italy

Vesselka Laleva Duleva
National Center of Public Health and Analyses,
Bulgaria

Sandun illangasinghe
Sabaragamuwa University of Sri Lanka,
Sri Lanka

Carlos Dias Pereira
Polytechnic Institute of Coimbra-College of Agriculture
Portugal

1. Food, Nutrition and Health

2. Food Science

3. Food Chemistry

4. Food Microbiology

5. Food Engineering

6. Obesity and nutrition

7. Clinical Nutrition

8. Malnutrition

9. Public Health Nutrition

10. Advanced Food Processing Technologies

11. Current Research in Food and Nutrition

12. Probiotics & Prebiotics

13. Nutraceuticals & Medicinal Foods

14. Food Toxicology

15. Obesity, Diabetes & Endocrinology

16. Agricultural Nutrition

17. Plant & Livestock Nutrition

18. Food preservation and Food packaging

19. Food and Agri business management

Food & Nutrition 2019 salient features

1 Meet Academia and Industry visionaries to get inspired

2 Knowledge, Benchmarking and Networking offered at one place

3 Forge connections and for global networking

4 Highly Organized and Structured Scientific programs

5 World class exhibitions & Poster presentations

6 Meet with new Suppliers & Vendors

Who can attend?

- Nutrition experts
- Food technologist
- Microbiologist
- Food safety officers
- Nutritionists
- Dietician
- Quality assurance officers, Scientists
- Faculties & Researchers
- Deans & Head of the department
- Biotechnologists
- Food Engineers
- Nutrition & Dietetics based Companies
- Business Entrepreneurs
- Health-Care Professionals

Goals of Food Science & Nutrition 2019

The meeting program underlines confirm based practice, education advancement, application, peer to peer networking and joint effort. The objectives of the meeting is to give a transformative expert improvement encounter through bringing together the world's food experts to catalyze and progress logical information about Nutrition and Dietary Management to display the latest research discoveries, and advance and improve collaboration efforts around the globe

About Valencia, Spain

Valencia is the capital of the autonomous community of Valencia and the third largest city in Spain after Madrid and Barcelona. This beautiful city is located at the Mediterranean sea with being a wonderful city with thriving culture, eating and nightlife scenes. Here are some of the facts to know about Valencia. Valencia is the third largest city in Spain and the capital city of the province with the same name. Valencia is best known for producing textiles, metals, chemicals, toys, automobiles, and azulejos. They are exported to the different cities in Spain as well as out of the country. The city is also an important center for the marketing of agricultural and horticultural produce, especially fruit.

Valencia's port is the biggest on the Mediterranean western coast. It is the first of Spain in container traffic as of 2008 and the second of Spain in total traffic, handling 20% of Spain's exports. This port has more than 15,000 employees who provide services to more than 7,500 ships every year. The weather in Valencia can be hot. The record maximum temperature in this city is 42 degree Celsius. Since the climate is warm here, many tourists come to travel here to get sun in winter and relax in beaches. Valencia attracts many visitors yearly because of thriving culture, eating and nightlife scenes. Valencia has a number of the city which has numerous convention centers and venues for trade events. Valencia is best known for its trade and culture, cinema, theater, museums, magic, business, and more.....
