

HIMALAYAN CYSTICERCOSIS CONFERENCE

HIMALAYAN CYSTICERCOSIS CONFERENCE

“Towards Eradication”

Venue: Shanker Hotel, Kathmandu, Nepal
Date: 7-8 December 2018

Message from The Chairman

Dear colleagues,

It is our immense pleasure in announcing the Himalayan Cysticercosis Conference (HCC) 2018, going to be held in Kathmandu, Nepal on 7th & 8th December 2018 organized by Annapurna Research Center in collaboration with Neuro Foundation Nepal, Annapurna Neurological Institute & Allied Sciences & various other partner organizations.

This conference is being organized for the first time in Nepal with aim to transfer the technology and information related to cysticercosis among various scientists of the world. Nepal has a high prevalence of cysticercosis and is main cause of adult onset seizure. Although cysticercosis is a potentially eradicable disease, yet we are far from attaining the goal of its eradication. As the strains, patterns and clinical profile of cysticercosis differ according to geographical location, this conference seeks to bridge the gap of technology and information between various countries with prevalence of cysticercosis in order to tackle it more effectively.

HCC 2018 will serve as a platform to gather renowned scientists of the world working in their field including neuro-scientists, clinicians, non-clinical professional, public health professionals and veterinary specialists which will greatly benefit the stakeholders for working jointly towards the eradication of cysticercosis.

Basant Pant, MD, PhD
Chairman
Himalayan Cysticercosis Conference (HCC) 2018
Annapurna Research Center
Kathmandu, Nepal

Our Speakers

Agnes Fleury

MD, PhD
Instituto Nacional de
Neurologia y Neurocirugía
Mexico

Ana Flisser

D.SC
Department of
Microbiology &
Parasitology
Faculty of Medicine,
National Autonomous
University of Mexico
Mexico

Dr. Basant Pant

MD, PhD
Department of Neurosurgery
Annapurna Neurological
Institute & Allied Sciences
Kathmandu, Nepal

Kashi Nath Prashad

MD, Professor,
Department of
Neurological Sciences,
Sanjay Gandhi Post
Graduate Institute of
Medical Sciences,
Lucknow, India

Marshall W. Lightowlers

PhD
The University of
Melbourne,
Faculty of Veterinary &
Agriculture Sciences,
Victoria, Australia

Meritxell Donadeu

DVM, MSc
University of Melbourne,
Melbourne, Australia

Dr. Vedantam Rajshekhar

Department of
Neurological Sciences
Christian Medical College
Vellore, India

Who Should Attend?

- Neurosurgeons
- Neurologists
- Veterinary Scientists
- Public Health Experts
- General Practitioners
- General Physicians
- Epilepsists
- Epidemiologists
- Radiologists
- Residents
- Psychiatrists
- Pediatricians
- Ophthalmologists
- Public Health Students

Registration Fees (USD)			
Members/ Type	Early Bird 30th Sept 2018	Normal 30th Nov 2018	On Spot 1st Dec onwards
Non-SAARC Countries	300	450	600
SAARC Countries	200	300	400
Spouse	100	100	100
National Society Members	50	75	100

General Information

For Abstract Submission

HCC 2018 invites individuals to submit abstracts for poster & oral presentations related to the subject. All abstracts must be submitted via email to hccnepal2018@gmail.com by **30th September 2018**

Research Reports

Abstracts must contain original scientific data collected by the author(s). All reports must be based on work that has already been completed.

For abstract submission and other details, click [here](#)

Mode of Payment for Registration:

Name: **Annapurna Research Center**

Account Number: **00120100525332000001**

Swift Code: **NMBBNPKA**

Bank Name: **NMB Bank Ltd**

Bank Address: **NMB Bhawan, Babarmahal, Kathmandu, Nepal**

Branch Name: **Babarmahal**

GPO Box: **11543, Kathmandu**

Tel: **+977-1-4246160**

Please make sure to contact the Nepalese Embassy regarding the visa process in advance. Our conference organizer committee will also handle such queries and will do our best to provide authentic and helpful information regarding the visa process.

Places to Visit

The largest city in terms of area, Pokhara offers an extraordinary view into the Annapurna Range as well as activities like boating, paragliding, and bungee jumping

The capital city, and the city with the most UNESCO World Heritage Sites, Kathmandu is packed with hundreds of temples and historical monuments dating back upto 2000 years

Various pristine national parks span the Himalayan Region, known for trekking, mountain climbing, or even for mountain flights and general sightseeing for the less adventurous

The birthplace of Lord Buddha and home to dozens of temples and monasteries from all over the world within a monastic buffer zone of 56 acres

The Terai region houses a few national parks and wildlife reserves, perfect for a peaceful walk or elephant ride through the untouched Terai forests and plains
