Event Overview:

High population growth, increased life expectancy coupled with prevalence of lifestyle related diseases and aspiration of high quality healthcare is putting pressure on governments and healthcare providers and to be more innovative and invest in providing high quality care and adapting new technologies

With this in mind, the **GCC Healthcare Innovation Congress** will provide innovative strategies to improve the quality of healthcare delivery whilst reducing costs and assessing the latest products and solutions for improving patient care.

The congress will bring all healthcare stakeholders together including healthcare leaders from health authorities, providers from both the government and private sector, public policymakers and investors.

The congress will provide a unique platform for facilitating innovation in connected health, featuring plenary leadership sessions and 2 streams: Healthcare Management and Healthcare Technology. This format will enable you to network with all stakeholders and understand the need for driving innovation throughout your organisation as well as the benefits of innovation in tackling regional health concerns and improving population health. What's more, our speaker faculty features regional experts from the leading healthcare providers and case studies on important innovations in the region and it will cover all the latest trends in healthcare including but not limited to Artificial intelligence, cybersecurity and privacy, genomics and personalized medicine, process improvement, Health Information Exchange, Interoperability and data exchange, telehealth, connected care, disruptive technologies and more...

Some Of Our Previous Sponsors

"As a senior Health Informatics, I am going to recommend it to all my colleagues at DHA"

Amir Javanpour, Senior Health Informatics Officer, Dubai Health Authority

"Well organized"

Amna Ali Abdulla Alghailani, Deputy Director of Nursing, Al Baraha Hospital

"GCC Healthcare Innovation is a catalyst for all innovation in the GCC. The shared knowledge and experience was really reliable for us to learn from out counter parts in the GCC. Every time I attend, I learn new things done in the GCC. Great organization, great speakers and great interaction"

Mrs. Mubarak Ibrahim, Director of Health Information System Department, MOHAP

"First of all, we would like to thank the organisers at Maarefah to have invited us to participate at this great event. We believe it was an incredible and impressive platform for the following reasons: first, it was really a right audience with key stakeholders with the right size of participants, second the content and the themes were excellent. Third, the atmosphere was great and the networking opportunities were superior so well done Maarefah, it's a great platform. We are very satisfied and we will come next year. Thank you very much."

Nicole Hill, Director, Global Healthcare Sector Director, Alcatel-Lucent Enterprise

"This was an excellent meeting were ideas and knowledge were exchanged in a fantastic environment. Thank you to all."

Dr. Walid Achi, Chief Medical Officer, Emirates Hospitals Group, UAE

"It is very valuable that this congress has brought us together, key people who are innovators and involved in the actual day-to-day implementation of IT projects and people who are healthcare providers. It is a great opportunity to have dialogue about the topics that we need to discuss so one of the interesting topics that I was happy we had the chance to talk today was research and health informatics in the region. This is an area that we have not discussed a lot in conferences of this nature. Hopefully conferences like this will help us move forward and do valuable research and come up with innovative solutions that will take our IT healthcare projects to the next level."

Dr. Taghreed Justinia, Asst. Professor of Health Informatics, Regional Director IT Services, Technology and Health Informatics, King Saud bin Abdulaziz University for Health Sciences, Ministry of National Guard, Health Affairs, KSA
