WEBINAR

#7182 Using Musculoskeletal Ultrasonography & Electrodiagnosis in Differential Diagnosis

Instructor:
Mohini Rawat, DPT, MS, ECS, OCS, RMSK

**Audience: Physical Therapists and Assistants
and Athletic Trainers**

Delivery Options:
Live Webinar or Self-Study Options

SUMMARY: Successful management of the orthopedic problems is dependent on detailed knowledge of anatomy and physiology. Recognition of signs and symptoms and the use of the diagnostic tests like electromyography, nerve conduction studies and ultrasound imaging can significantly impact the clinical decision making and guide the management of the patient.

Electromyography and nerve conduction studies are useful to localize the lesion and understand the prognosis. Ultrasound imaging is rapidly growing and popular point-of-care assessment tool which has its application in understanding structural perspective and can provide insight into abnormalities of soft tissue structures. This presentation will highlight the role of electromyography, nerve conduction studies and ultrasonography and how to integrate this knowledge to inform the clinical decision. Information about billing of ultrasonography and electrodiagnostic studies will be discussed. Course instruction methods include lecture, demonstration, videos, case studies and question/answers. (Introductory level)

PRESENTER: Dr. Mohini Rawat is co-founder and president of American Academy of Musculoskeletal Ultrasound. She is Fellowship director of Musculoskeletal Ultrasound program at Hands-On Diagnostics. She is board certified in Clinical Electrophysiology and Orthopaedics by American Board of Physical Therapy Specialties and in Musculoskeletal Sonography by Alliance for Physician Certification and Advancement. She received her Doctorate in Physical Therapy from MGH institute of Health Professions in Boston and her Masters in Biokinesiology from the University of Southern California. She is faculty for courses in Musculoskeletal Ultrasound and clinical electrophysiology in PT program and other continuing education courses. She has mentored hundreds of clinicians and has reviewed thousands of ultrasound studies. Dr. Rawat is a contributing author and wrote chapters on imaging in books. She has published articles and presented numerous musculoskeletal ultrasound courses, webinars and lectures in multiple professional conferences and organizations including the American Institute of Ultrasound in Medicine and American Academy of Orthopaedic Surgeons annual meeting. She is the chair of the Academy of Clinical Electrophysiology and Wound Management Neuromusculoskeletal Ultrasound Special Interest Group and holds other elected positions in American Physical Therapy Association. She is editor of a textbook in musculoskeletal ultrasound. *Financial*— Received a teaching honorarium from Motivations Inc. *Nonfinancial*— No relevant nonfinancial relationship exists.

OBJECTIVES: Upon completion of this course, the participant will be able to:

1. List commonly used terms in electrodiagnosis and ultrasonography.
2. Understand the findings of electrodiagnosis and ultrasonography with its clinical correlates.
3. Recognize the indications and application of ultrasonography and electrodiagnosis in clinical practice.
4. Integrate findings from ultrasonography and electrodiagnosis in differential diagnosis.
5. Identify billing requirements and reimbursement for ultrasonography.

FORMAT: This is a 3 contact hour course equivalent to 3 CEU's or 0.3 CEUs offered as a live webinar or self-study. Instructors present the live course content via an internet website displaying real time power points. Learners will receive a course instruction link. Instructors lecture through livestreaming internet on your computer. Questions may be asked during the webinar using the chat feature or the "raise hand" feature for live discussion.

PT CEU's: Motivations Inc is an approved provider of Physical Therapy continuing education by these professional bodies: Texas Chapter of the American Physical Therapy Association, ILDPR- Illinois Department of Professional Regulation Approved PT CE Sponsor, NY- New York State Education Department, Office of the Professions. Physical Therapy Board of California. Many state boards recognize these for pre-approval purposes. Contact us if you would like verification a state.

ATC CEU's: Motivations, Inc. (BOC AP #P2549) is approved by the Board of Certification, Inc. to provide continuing education to Athletic Trainers. This program is eligible for a maximum of 3 Category A hours/CEU's.

AGENDA: Pre-Study: 30 Minutes Plan to read the course materials, references and review the post test before the start time. Please be prepared to share patient case study and related question during the discussion time.

- 15 minutes Introduction
- 30 minutes Overview of electrodiagnosis in clinical examination
- 30 minutes Overview of ultrasonography in clinical examination
- 30 minutes Case studies to integrate clinical exam findings/diagnostic tests results to determine prognosis/treatment
- 15 minutes Questions and answers

Post-test: 30 Minutes Research, identify, and submit your post test question answers on the online form. This is an open book test you can take multiple times if needed to obtain the 70% score. Complete the evaluation feedback survey and needs assessment. Obtain, review and save your auto-emailed certificate for your files.
