

FULL ARCH IMPLANT SURGERY LIVE PATIENT PROGRAM

PROGRAM OVERVIEW

This comprehensive, 4-day live patient course is designed to provide participants with a complete mastery of full arch implant surgery, covering everything from foundational skills to advanced techniques. Throughout this intensive course, participants will perform **Full Arch/Full Mouth** dental implant surgeries under the guidance of implant experts, including oral and maxillofacial surgeons and implant specialists who have over 3 decades of dental implant surgical experience. This program is funded by ITC CARES, a 501(c)(3) tax-exempt nonprofit organization. All costs associated with participation in this program are tax deductible donations that are directly used to fund this program.

UPON COMPLETION, YOU WILL BE ABLE TO:

- Apply the recommended, evidence-based guidelines for a safe and appropriate full arch implant surgery.
- Properly place the implants in the Full Arch configuration.
- Perform the Step-by-step conversion of the full upper and lower denture into an immediate load
- Take open tray and closed tray impressions for the Full Arch prosthetic solution.
- Understand the bite registration.
- Understand Prostheses design.
- Understand the biomechanics for the Full Arch procedure.
- Understand the full arch dental implant occlusion.
- Know how to fabricate provisional and permanent prosthetic options.
- Know how to deal with possible full arch implant complications.
- Understand hygiene requirement and protocol for long-term success.
- Provide diagnosis, prognosis and properly sequenced comprehensive treatment plans.
- Perform comprehensive examinations, collect clinical data, and document the patient's dental and medical condition.

WHY ITC SEMINARS?

- ITC Seminars is the only Dental CE provider in the world to have academic exchange partnerships with International Universities. All of ITC Seminars' Live Patient Programs are taught and led inside universities.

- Thanks to our joint partnership with International Universities, all course participants receive a provisional temporary dental license to be able to treat patients internationally and for protection from any liability. We are the only Dental CE Provider to provide course participants with legal authorization and a temporary license to practice dentistry internationally.
- Our International Live Patient Programs are limited to only 6 participants for maximum training, supervision, guidance, and course participation.
- Our teaching ratio is 1:2 for optimum learning & dedication.
- Our patients are guaranteed to be 100% restored. All course participants will receive a follow up report that includes images of all the cases they treated during the course fully restored.
- This Live Patient Program is worth 40 CE hours and is certified by the ADA (CERP Certified), AGD (PACE certified), Dental Board of California, and Dental Board of Florida.
- All participants will be evaluated by our faculty throughout the entirety of the program to highlight and reinforce growth edges and ensure maximum confidence and competence in dental implant treatment planning and implant surgery upon graduating from the program.
- We ensure scientific integrity and are free of commercial bias.
- All dental implant materials and components fulfill all international, local, state, and government requirements to be used on live patients.

| • Piezo Handpiece | • Lunch for 4 days |
| • Bone grafting material | • Local Transportation |
| • Surgical instruments | |

SURGERIES PROMOTED

The following are the procedures you will perform in our Full Arch Implant Surgery with Immediate Loading Live Program:

- Incision and Flap Design
- Full Arch/Full Mouth dental implant surgery
- Tilted Implant Placement
- Bone Grafting Techniques
- Growth factors (PRP/PRF/IPRF-sticky bone) preparation techniques

WHAT TO EXPECT ON THIS PROGRAM?

You will encounter various kinds of full arch cases and surgical procedures. All patients are preselected, screened, and evaluated in advance for each course participant. Our Full Arch Implant Surgery course is designed to help you master the essential foundations of

full arch procedures, from incision and flap design to implant placement and suturing. With full hands-on training, you will be guided through each critical step, ensuring you develop a comprehensive understanding of the skills required for successful full arch restorations. Personalized instruction and ongoing evaluations by our expert instructors will ensure that you receive focused guidance on the areas where you need the most improvement.

The number and type of procedures you perform will depend on your skill level, surgical experience, the time required to successfully complete each procedure and your performance, as continually evaluated by the course instructors, during the course. Our expert faculty will continuously assess your performance, tailoring the learning experience to maximize your progress and build your confidence in performing full arch surgeries effectively.

Every morning, on the days of live patient surgery, we have a short lecture and a meeting with all the doctors to review the treatment plan and medical history for the patients that you will be treating that day. In that moment, with the X- Rays in hand, we evaluate the cases and discuss the best treatment plan and approach for each patient.

FACULTY

You will have the advantage of being trained by oral/maxillofacial surgeons and Implant Specialist. Our faculty has been involved in dental humanitarian missions, academic exchanges, and specialized in the field of oral implantology for more than 30 years. Please click [HERE](#) to learn more about our Faculty.

SCHEDULE

The program is 4 full days. The first day will consist of Lectures and hands on workshops on suturing techniques and dental implant placement protocol and drill sequencing. The following 3 days are dedicated to Live Patient Surgery. We require that you arrive to the course destination one day before the start of the course.

ADMISSIONS APPLICATION

ITC Seminars' Advisory Committee, composed of members of the faculty, select the most highly qualified applicants to receive offers of admission. All admissions decisions are made by the Committee. Offers of admission are made on a rolling basis until the course is filled. Applicants are notified via email once the admissions decision has been made so please ensure that your email address remains current.

The admission decision will be based upon your performance in previous academic programs, the corresponding quality of those programs, competitive resumes, and performance as a dental practitioner. Personal factors, as evidenced by outreach efforts, extracurricular and leadership activities are also key factors.

Final Review Stage

Once all required application items (1-6) have been received, a virtual interview with members of our Advisory Committee may be scheduled as the final stage of the admissions application process. This interview will assist the Committee in making a decision regarding the applicant's admission to the course.

Upon receiving an offer of admission, doctors will receive the course registration and payment authorization forms via email to reserve their seat in the Live Patient Program.

Admission Requirements

1. *Resume or CV*

Resumes must include any prior CE activity completion, name and type of CE course(s), and the total number of Dental CE hours/credits earned prior to applying for admissions to ITC Seminars Live Patient Program. CE courses are recommended to be ADA or AGD certified or approved by the Dental Board of the State granting your dental licensure.

2. *Copy of valid Dental License.*

3. *Copy of valid CPR certification.*

4. *Copy of Dental School Diploma.*

5. *Applicants are required to complete the online surgical experience survey ([Link to Surgical Experience Survey](#)).*

6. *Applicants are required to provide evidence/proof of experience.*

a. Applicants who have performed:

1. 0 All-On-X, Full Arch implant cases please refer to section 6.b. or 6.c.
2. 1-5 All-On-X, Full Arch implant cases must submit a minimum of 1 full arch case and 10 dental implant placements.
3. 6-10 All-On-X, Full Arch implant cases must submit a minimum of 4 full arch cases and 6 dental implant placements.
4. 11+ All-On-X, Full Arch implant cases must submit a minimum of 8 full arch cases.

Fully document the required number of cases. Documentation must include patient slides, pre and post-operative x-rays and clinical photographs of final cases, scans, pre-operative evaluation and planning forms, treatment consent forms, and chart notes. Please note that 2+ implants in the same patient counts as 2+ different cases.

b. Applicants who have not performed any All-On-X/Full Arch implant cases must submit a minimum of 15 dental implant cases.

Fully document the 15+ cases. Documentation must include patient slides, pre and post-operative x-rays and clinical photographs of final cases, pre-operative evaluation and planning forms, treatment consent forms, and chart notes. Please note that 2+ implants in the same patient counts as 2+ different cases.

OR

c. Applicants who have no experience in All-On-X/Full Arch implant surgery

and no experience in single dental implant placement are required to complete either ITC Seminars' Human Specimen Hands-On-Workshop, ITC Seminars' Dental Implant Live Patient Program, or submit a minimum of 10 dental implant cases after completion of an ADA or AGD accredited dental implant live patient course.

Admissions Application Submission

All admission application requirements and materials must be submitted to ITC Seminars. There are three ways to submit your application: email to itegolive@gmail.com, fax to (949) 460-0042 or mail to the ITC Seminars Central Office. Applicants are encouraged to apply for admission at least 2 months before the start of the Live Patient Program. Applicants are required to send all admission requirements together at the same time. Applying early can help you avoid delays, allow for timely processing, and improve your chances of being admitted to the live patient program. Applicants will be notified of their admission status within 2 weeks of submitting their complete application.

For candidates who receive an offer of admission, a program registration form will be emailed to the applicant in order to reserve their seat in the CE course.
