| 10:45 – 11:15 | Citrate anticoagulation for RRT // Dr David Stanley             |
| 11:15 – 11:45 | RRT: Practical Aspects // Dr Sumant Shanbhag & Dr Mohsen Khalil |

### SESSION 2: (WORKSHOPS)

|               |                                                           |
|---------------|-----------------------------------------------------------|
| 11:45 – 12:45 | RRT Workshop (1) // Dr David Stanley & Ms Ros Anslow      |
| 12:45 – 13:45 | LUNCH BREAK                                               |
| 13:45 – 14:45 | RRT Workshop (2) // Dr Sumant Shanbhag & Dr Mohsen Khalil |
| 14:45 – 15:30 | Interactive Session // Dr Chris Newson                    |
| 15:30 – 15:45 | COFFEE BREAK                                              |

### SESSION 3:

|               |                                                            |
|---------------|------------------------------------------------------------|
| 15:45 – 16:15 | AKI and RRT; Evidence-based Review (2) // Dr Mohsen Khalil |
| 16:15 – 16:45 | Prevention of AKI & Renal protection // Dr Asha Ramkumar   |
| 16:45         | CLOSURE OF MEETING                                         |

During workshops, delegates will move in small groups to the RRT machines for a hands-on work session. They will have the opportunity to use the machine with different RRT modes and different anticoagulation protocols including citrate, and to address particular questions and problem-solving. This session will involve interactive session and case scenarios-based discussion.
