

**LEADING EDGE UROLOGY: 48th Duke Urologic Assembly and Duke Urologic Cancer Symposium Agenda**  
**Thursday, March 31, 2016**

|                   |    |                                                                 |
|-------------------|----|-----------------------------------------------------------------|
| <b>Session I</b>  |    | <b>MULTIDISCIPLINARY UROTHELIAL CARCINOMA MANAGEMENT</b>        |
| 12:25             |    | New Developments in Non-Muscle Invasive Bladder Cancer          |
| 1:00              | pm | Multidisciplinary Management for Muscle Invasive Bladder Cancer |
| 1:40              | pm | Immunotherapy for Advanced Bladder Cancer                       |
| 2:20              | pm | TUMOR BOARD/CASE DISCUSSIONS                                    |
| 2:55              | pm | BREAK IN THE EXHIBIT HALL (Sabal 1 & 2)                         |
| <b>Session II</b> |    | <b>MULTIDISCIPLINARY CARE FOR TESTICULAR AND PENILE CANCERS</b> |
| 3:15              | pm | Adjuvant and Salvage Radiation in Prostate Cancer               |
| 3:55              | pm | Long Term Effects of Radiation in the Cancer Patient            |
| 4:25              | pm | Stage 2 Testicular Cancer                                       |
| 4:55              | pm | Penile Review: Surgical/Radiation/Brachytherapy                 |
| 5:25              | pm | Penile: Systemic Treatment                                      |
| 5:55              | pm | TUMOR BOARD/CASE DISCUSSIONS                                    |
| 6:15              | pm | Adjourn                                                         |

**Friday, April 1, 2016**

|                    |    |                                                                     |
|--------------------|----|---------------------------------------------------------------------|
| <b>Session III</b> |    | <b>MULTIDISCIPLINARY RENAL CELL CARCINOMA MANAGEMENT</b>            |
| 6:55               | am | Imaging of Renal Masses/RCC                                         |
| 7:30               | am | Renal Cell Carcinoma Genetics                                       |
| 8:10               | am | Role of Ischemia in Partial Nephrectomy                             |
| 8:40               | am | What’s New in Systemic Therapies for Renal Cell Carcinoma           |
| 9:20               | am | TUMOR BOARD/CASE DISCUSSIONS                                        |
| 10:00              | am | BREAK IN THE EXHIBIT HALL (Sabal 1 & 2)                             |
| <b>Session IV</b>  |    | <b>MULTIDISCIPLINARY PROSTATE CANCER MANAGEMENT</b>                 |
| 10:15              | am | Active Surveillance in Prostate Cancer                              |
| 10:45              | am | Health Disparities: Interventions to Overcoming Barriers and Biases |
| 11:15              | am | VICTOR A. POLITANO LECTURESHIP                                      |
| 12:00              | pm | VICTOR A. POLITANO, MD, LUNCHEON                                    |
| 1:00               | pm | Imaging Recurrent Prostate Cancer                                   |
| 1:30               | pm | Systemic Treatment for Prostate Cancer                              |
| 2:00               | pm | TUMOR BOARD/CASE DISCUSSIONS                                        |
| 2:30               | pm | ADJOURN                                                             |

**Saturday, April 2, 2016**

|                   |    |                                                                                       |
|-------------------|----|---------------------------------------------------------------------------------------|
| <b>Session V</b>  |    | <b>CRITICAL KNOWLEDGE FOR UROLOGISTS</b>                                              |
| 6:55              | am | Molecular Risk Tools for Prostate Cancer                                              |
| 7:40              | am | ICD 10                                                                                |
| 8:25              | am | Anxiety and Depression in Prostate Cancer Patients; What's a Urologist to Do          |
| 8:55              | am | Billing & Coding                                                                      |
| 9:30              | am | CASE DISCUSSIONS                                                                      |
| 10:00             | am | BREAK IN THE EXHIBIT HALL (Sabal 1 & 2)                                               |
| <b>Session VI</b> |    | <b>RECONSTRUCTIVE</b>                                                                 |
| 10:15             | am | Catheter Associated Urinary Tract Infections                                          |
| 10:45             | am | Bladder Cancer Factors Associated with Depression & Increased Suicide Risk            |
| 11:15             | am | Management of Apical Prolapse                                                         |
| 11:45             | pm | Lichen Sclerosus in the Male: A Paradigm Shift in Treatment Options                   |
| 12:15             | pm | To Sling or Not to Sling: Reviewing the Literature on Prophylactic Sling Incontinence |
| 12:45             | pm | CASE DISCUSSIONS                                                                      |
| 1:00              | pm | Adjourn                                                                               |

**Sunday, April 3, 2016**

|                    |    |                                                                                 |
|--------------------|----|---------------------------------------------------------------------------------|
| <b>Session VII</b> |    | <b>STONES &amp; ENDOUROLOGY</b>                                                 |
| 6:55               | am | Antibiotic Use During Endourologic Surgery                                      |
| 7:30               | am | Robotic Management of Benign Upper Tract Ureteral Obstruction                   |
| 8:00               | am | Defining Patient-centered Outcomes for Urinary Stone Disease                    |
| 8:30               | am | Medical Stone Mgmt: Perspectives from AUA Nephrolithiasis Guidelines Panel      |
| 9:00               | am | Innovative Surgical Management of Large Prostates                               |
| 9:30               | am | The Beers Criteria: Approach to Potentially Inappropriate Meds for Older Adults |
| 10:00              | am | Case Based Stone Management                                                     |
| 10:30              | am | CONFERENCE ADJOURNMENT                                                          |

*Opportunities for Q&A will be provided at the conclusion of each presentation*
