SPEAKERS

DR. TOBY COSGROVE

Executive Advisor and Former President & CEO Google & Cleveland Clinic

VANESSA CANDEIAS

Head Global Health & Healthcare and Member of the Executive Committee World Economic Forum

DR. HEATHER BERLIN

Neuroscientist & Assistant Professor of Psychiatry Icahn School of Medicine at Mount Sinai

JENNIFER ESPOSITO

Vice President - Health Magic Leap

MARK O'HERLIHY

Managing Director EMEA IBM Watson Health

DR. ALAIN DAGHER

Neurologist and Professor, Montreal Neurological Institute, McGill University

DR. ANN AERTS

Head Novartis Foundation

ROLAND ROTT

Global General Manager of Women's Health Ultrasound GE Healthcare

PROF. ALEXANDER NAVARINI

Head of the Department of Dermatology University Hospital of Basel

PROF. PETER SCHMID-GRENDELMEIER

Head Allergy Unit, Dept. Of Dermatology University Hospital Zürich

DR. PATRICE MATCHABA

Group Head of Global Health & Corporate Responsibility Novartis

DR. ALEXANDRA GREENHILL

Founder, CEO & Chief Medical Officer Careteam Technologies

DR. NATALIE BANNER

Understanding Patient Data Lead Wellcome Trust

DR. BART GEERTS

Consultant Cardiac Anaesthetist & CEO AMC & Healthplus.ai

ALEXANDER FINLAYSON

GP & Co-Founder & Doll Fellow Nye & Oxford University

NAOMI LEE

Executive Editor - Digital The Lancet

DR. LIAM CAFFERY

Telehealth Technology Director University of Queensland

BABITA SHARMA

Television Presenter BBC

STEFAN GERMANN

CEO Fondation Botnar

BAHER AL HAKIM

CEO Medicus

VIMAL NARAYANAN

Founder & CEO Medtrix

MOSES BRAIMAH

Nasopharyngeal Cancer Survivor & CEO Pacific Messages

DR. CHRISTOPHE HSU

Consultant in Tele dermatology & AI University Hospital of Basel

ABOUT INTELLIGENT HEALTH

WHAT'S INTELLIGENT HEALTH?

The only large-scale, global summit focused purely on AI in healthcare – **And CPD Accredited!** Intelligent Health gathers the world's brightest AI health brains from **pharmaceutical, biotech, medtech, health provisions, clinicians, tech companies, startups, investment and science** every September in Switzerland. We work in line with the **UN Sustainable Development Goals** and have a big focus on making sure the **benefits of AI are distributed globally.**

The mission?

To progress discussions about how AI can be used to prevent and solve some of the world's greatest healthcare problems, improve the health of the human race and set the global AI agenda in healthcare for 2020 and beyond.

What's on?

Two jam-packed days of health tech goodness. **Think like a physician and code like a developer**, with practical, real-world AI use cases, deep dive tech talks, announcements from the tech giants, nitty-gritty coding and AI clinicians workshops, hear from the health tech transformers of tomorrow and of course, passionate debate on social and behavioural determinants of health, ethics and AI for global health.

What's new in 2019?

The IH stage is growing to **5 tracks**, including a dedicated deep dive technical stream looking at fundamental breakthroughs using AI which will change lives and reshape healthcare. The addition of a startups stage of AI health transformers, to hear from the CEOs and Founders of the most disruptive AI health tech companies of tomorrow. More **dedicated content** for CMIOs and clinicians with hands-on workshops and sessions to solve real-world problems. And for the first time, we have a Q&A stage so you can pick the brains of the greatest minds in applying AI in healthcare. Exciting!

TESTIMONIALS

Don't take our word for it, here are some comments from just a handful of past attendees

WHAT PEOPLE THOUGHT!

"Intelligent Health 2018 has proven to be the **right platform for us to address our Health target audience** in terms of level and function. The content shared by an impressive speaker line-up had **great quality**"

Kaveh Safavi, Senior Managing Director, Head of Global Health Practice, **Accenture Health**

"The Intelligent Health summit was **energizing, uplifting and educational!** It was the best of AI without the hype – truly about how AI can impact and improve the health of all people, across diverse geographies, diseases and resources. It was exciting to see **how many clinicians participated**"

Dr. Mimi Huizinga, Strategic Data and Digital, US Oncology, **Novartis**

"The conference was **unlike any I've attended before**. I particularly liked the organizational structure; the format of the panels; and the introductions each day by the DJ. It was a **unique combination of science and glamour** – all presented in a format that kept my full attention"

Jay Olshansky, Co-Founder and Chief Science Officer, **Lapetus**

"We at Medicus AI took a leap of faith with the first Intelligent Health conference and didn't know what to expect, but the **outcome turned out to be exceptional!** We ended up making a lot of useful connections, most of which we will follow up with actionable next steps. We're definitely looking forward to the next installment and we **aim to grow our presence**"

Baher Al Hakim, CEO, **Medicus**

"It was **excellent to partner with Intelligent Health 2018** to ensure a strong focus on leveraging AI for child & adolescent health... and to coordinate our efforts so that AI serves all of humanity"

Stefan Germann, CEO, **Fondation Botnar**

"A place where you get a **clear vision** of how intelligent technologies are going to reshape the next 10 years of Healthcare"

José Pedro Almeida, Director of Big Data Analytics & Machine Learning, **São João Hospital Center**

"A **pioneering event** that gets health care providers, hospitals, data scientists, startups and corporates together to talk about challenges and disruptive changes and how to get them realised. **Great energy and great insights**, looking forward to the next edition. Most presentations and even the meetings in between led to small **nuggets of knowledge to be used in the future**"

Dr. Bart Geerts, Consultant Cardiac Anaesthetist, **AMC** & Founder, **Healthplus.ai**

"I particularly value the debates around how to push boundaries at scale on this, while not getting caught in the hype. **Well done @IntHealthAI for setting this up**. Fantastic as well to see the wealth of talents joining in"

Bertrand Bodson, Chief Digital Officer, **Novartis**

"Your team put together a **most productive, educative and inspiring conference**, and we say congratulations to you. Your support made it possible for the fellows to be in Basel, and to participate in a most informative and useful networking event"

Huguette Diakabana, Deputy Director, **The African Alliance of Digital Health Networks**

"Finally an event to put together people great minds who see the incredible potentials of AI in health"

Eduardo Peire, CEO, **AI Scope**

"Intelligent Health **did a great job** of combining presentations and topics for how healthcare and AI was changing at a high level as well as providing a platform for specific case-studies and practical applications of research"

Nikhil Krishnan, Senior Industry Analyst, **CB Insights**

"A **terrific conference** – great structure and content. It was a pleasure and an honour to be involved."

Anne O'Riordan, Senior Managing Director Life Sciences, **Accenture**

KEY THEMES

HERE IS WHAT WE WILL BE TALKING ABOUT:

THE FUTURE OF HEALTHCARE

Where can AI take us with practical, real-world AI use cases

DEEP DIVE AI TECH TALKS

Fundamental breakthroughs using AI which will change lives and reshape healthcare

REGULATORS PERSPECTIVES

The evolving narrative on how you regulate a device that uses a self-improving algorithm?

MINISTERS PERSPECTIVE

Addressing social and behavioural determinants for health using AI

CLINICIANS AND CMIOs PERSPECTIVE

How can technologists convince clinicians and CMIOs that AI works and get them to use it?

CONSUMER EMPOWERMENT

How to provide better insight into medical data to help healthcare consumers make more informed health decisions

CHINA

How China's tech giants are delivering smart health services, driven by the internet and AI

AI HEALTH TRANSFORMERS

Hear from the CEOs and Founders of the most disruptive health tech companies of tomorrow

AI IN GLOBAL HEALTH

The latest in population level application of AI in healthcare and tracking progress made towards the health-related Sustainable Development Goals
