AUTUMN MEETING

FRIDAY 2ND OCTOBER 2015

WELCOME

We are looking forward to your company at the BCIS Autumn Meeting in Basingstoke this year. We will be exploring theoretical issues, real life scenarios and controversies in caring for people with ischaemic heart disease and hope that the programme attracts and intrigues you.

It would be difficult to get more down to earth than the clinical environment in Hampshire Hospitals and we will try to make the presentations and discussion relevant to everyone involved including nurses, physiologists, radiographers, doctors in training as well as the most extremely differentiated consultant interventional cardiologist.

Basingstoke is easy to get to and not a bad place to stay, so we hope that you will want to join us for dinner the night before at the Pavilion within the Ark Conference Centre, Basingstoke and stay at the nearby Apollo Hotel overnight. Indeed it is a mark of true sophistication to boast that one has spent the night in Basingstoke.

We are holding the conference in The Ark Centre on the hospital site and hope this will add to the clinical feel.

Do please join us and feel free to be provocative and controversial.

Best wishes

Dr Andrew Bishop

Dr Carl Brookes
