PRESENTS

SELECTION & MEDICAL MANAGEMENT OF WEIGHT LOSS SURGERY PATIENTS

A Comprehensive Guide to
Weight Loss Surgery
*for Primary Care &
Specialty Physicians*

Saturday, March 3, 2018

The Umstead Hotel
Cary, North Carolina

 **Duke Weight Loss Surgery**

OVERVIEW

As weight loss surgery becomes a commonplace procedure for treating morbid obesity, primary care and specialty providers face constantly changing treatment options and a growing population of post-surgical patients who require different treatment methods. Recent advances in minimally invasive surgery have provided safer, more effective surgical treatment options.

Learn how to identify patients suitable for surgery, how to assist patients in the weight loss surgery evaluation process, and how to provide the best treatment options for patients. The course will focus on long-term, post-surgical medical management of patients for successful weight loss, management of co-morbidities, how to address potential complications, and risks related to the surgical procedure.

Course Director:

Dana D. Portenier, MD

*Assistant Professor of Surgery
Division Chief, Metabolic and
Weight Loss Surgery*

*Chief, General Surgery,
Duke Regional Hospital*

TARGET AUDIENCE

This course is intended to meet the needs of primary care providers and specialists who manage patients with morbid obesity. This course is also beneficial to residents and fellows in surgical or medical training as well as physician assistants and nurse practitioners.

COURSE OBJECTIVES

- Identify the disease of morbid obesity and its co-morbid conditions
- Increase knowledge of weight loss surgery procedures and procedure outcomes
- Explain common operative and post-operative complications
- Review and discuss how to manage changes after weight loss surgery: diabetes, cardiovascular disease, bone metabolism, pregnancy depression, and endocrine diseases
- Help patients achieve and maintain successful weight loss

AGENDA

7:30 am	Registration, Continental Breakfast, Exhibits
8:15 am	Welcome and Overview
