About Milan

Milan, the capital of lombardy, has a population of 1.3 million people. It is the biggest industrial city of Italy with many different industrial sectors. It is a magnetic point for designers, artists, photographers and models. Milan has an ancient city centre with high and interesting buildings and palazzos, which is why so many people from all over the world want to see the city of glamour. Milan has always been a rich and important city. It has always

been a place full of various famous artists and offers a particular assortment of churches, buildings and monuments. There was a change of culture and art in the renaissance with big a contribution in the period of the neoclassicism. Milan offers a big variety of buildings, monuments and museums. The most important church is the cathedral which is the third largest church in the world. Italy is, of course, widely known for its cuisine. However, but some cheeses that go under the radar include tasty and sometimes spicy varieties like taleggio, stracchino, gorgonzola. In general, the most important things to try in milan (and the whole of lombardy) include milk, cream, butter, cheese. It may sound strange, but it's true. A great majority of the classic dishes consist of milk and cream, butter, mascarpone, cheese and ricotta, even the names of the towns, such as crema and cremona remind you cheese. However don't think that everything's the same and tastes the same: there is a huge variety in the rich cuisine of milan. You can also visit some

interesting markets in milan, where you can buy everything for bargains. Those markets are all time crowded but they are worth to see and to go shopping. Going to markets is the best way to meet people and know another side of the Italian life.

Testimonials

Thank you for the wonderful opportunity from Aurelius Conferences. That was a great opportunity to communicate with the experts. The meeting was very well organized and worth a recommendation to more scientists and researchers.

Wolfgang Siegrat

Bram D'handt

Quite edifying even for university professors, very encouraging reports by young researchers. It was a real pleasure to attend meetings organized by Aurelius Conferences.

Thanks to Aurelius team for this outstanding help, which obviously put in a tremendous effort and helped with all our requests.

Dr. Piet Van Loo

Joachim Rajek

Thank you for the wonderful opportunity, I am so glad to associate with Aurelius Conferences.
