One-day seminar – fully catered

The ECT4Health Plastering, Casting and Slabbing workshop is a six-hour hands-on practical seminar on the assessment of limb injuries and the application of Plaster of Paris (POP) slabs.

During this program participants will apply 4 upper limb and one lower leg slab which represents the most common scenarios in rural or remote practice. The program commences with an overview and evidence-based explanations about safe casting techniques, moulding and splinting of orthopaedic injuries

This workshop is ideal for 3rd & 4th year Medical Students, final year Nursing Students, PGY 1-4 Doctors, Rural clinicians, Registered Nurses in rural or remote practice, Nurse Practitioners and candidates.
