

The Inn at Bay Harbor, A Renaissance Golf Resort

For over 100 years vacationers have traveled to Petoskey, located on northern Michigan's Little Traverse Bay. They came to escape the heat of summer, the commotion of big cities and rekindle romance. They found a natural paradise replete with numerous pastimes and were treated every evening to million dollar sunsets on "America's Third Coast". The Inn at Bay Harbor opened for guests in 1998, but feels like a historic Michigan hotel. It stands as an authentic tribute to an era of gracious living while embracing all the modern conveniences and active lifestyle that subsequent generations have come to expect and enjoy making a family tradition.

The Inn at Bay Harbor affords guests the finest accommodations and services. With 45 breathtaking holes of championship golf, between Bay Harbor Golf Club and Crooked Tree Golf Club, it's your perfect golf getaway. In addition to golf, the Inn features a full service spa and salon, award-winning restaurants, a marina and shopping in the Village of Bay Harbor. The resort has received numerous accolades including recognition from Conde Nast Traveler Magazine and Boating Life for their unique Lake Michigan location.

Guest rooms feature luxurious down bedding, alarm clock, coffee maker/tea maker, iron/board, and more. Deluxe Lake Room features 2 Queen beds, plus a Lake Michigan view, and balcony. Deluxe Quarry room offers 2 Queen Beds and a Quarry view. Master suite lake view rooms offer 1 King bed in the bedrooms, 1 Queen sized Murphy bed in the living area, plus a fireplace and kitchenette. Tower Suite rooms feature 1 King bed, fireplace, whirlpool tub, and balcony.

The Inn at Bay Harbor Renaissance Lake Michigan Golf Resort is located approximately 23 miles from Pellston Regional Airport (PLN), 65 miles from Cherry Capital Airport (TVC), 199 miles from Gerald R. Ford International Airport (GRR), and 210 miles from Lansing Capital Region International Airport (LAN).

COURSE DIRECTOR: Mark T. Murphy, MD, MSN Education, Austin, Texas, and Medical Director, Northwest Anesthesia Seminars, Pasco, Washington

TARGET AUDIENCE: This course is designed for physicians, certified registered nurse anesthetists, physician assistants, nurse practitioners, registered nurses and other medical care providers who must maintain state-of-the-art knowledge of the specialty or are impacted by it.

PROGRAM PURPOSE: The practitioner of anesthesiology must possess the scientific background for clinical practice; maintain state-of-the-art knowledge of not only the specialty, but also of all additional related disciplines which may impact it; maintain an up-to-the-minute armamentarium of knowledge and skills for the selection and use of complex equipment, pharmacological agents, and procedures necessary for the provision of quality patient care; manage self and colleagues to function toward common goals in the clinical setting, the clinical and educational institutions, and the community in which the practice resides; serve as an expert in matters involving health care delivery; serve as an informed manager of clinical and educational services provided, including the acquisition and distribution of resources necessary in meeting professional goals; and provide assistance with and support of other service providers, departments, institutions, and organizations dependent upon the professional expertise of the practitioner. Presentations are designed to facilitate the physician, nurse specialist, and other providers maintaining skills of the same kind to review and update knowledge and abilities in one or more of these areas vital to the practicing professional.

OBJECTIVES: At the conclusion of this activity, the participant will be able to:

Apply the pertinent physical and behavioral sciences—to include but not be limited to advanced anatomy and physiology, pathophysiology, chemistry, physics, psychology, and social sciences—as they impact and are affected by the planning, delivery, and monitoring of anesthesia and related services inherent in the anesthesiology professions.

Explain the selection, dosing considerations with methods of administration, safe use, and contraindications and precautions of presented pharmacological agents through the understanding of their physicochemical properties, pharmacokinetics and pharmacodynamics, updated uses, and more recently developed additional, related, and similar drugs.

Outline comprehensive management plans for the group of patients discussed, whether related in age, physical status, cultural background, invasive procedure, anesthetic or analgesic requirements, clinical setting, adverse reactions, and/or goals of care.

Apply the principles of safety and asepsis in the performance of anesthetic procedures and administrations, equipment use, and other applications encountered during the provision of anesthesia and analgesia whether in the surgical unit, the labor and delivery suite, the pain management clinic, or other more remote location of anesthetizing services.

Incorporate the appropriate recommendations and/or requirements of pertinent external organizations, institutions, and professional groups—recognized as serving as the authority for and/or holding the responsibility to compile and approve such tenets—in the provision of anesthesia and related services, whether medical, legal, philosophical, ethical, or health care management standards.

Apply the new techniques in the clinical setting of the participant.

ACCREDITATION: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of The A. Webb Roberts Center for Continuing Medical Education of Baylor Scott & White Health and Northwest Anesthesia Seminars. The A. Webb Roberts Center for Continuing Medical Education of Baylor Scott & White Health is accredited by the ACCME to provide continuing medical education for physicians.

The A. Webb Roberts Center for Continuing Medical Education of Baylor Scott & White Health designates this live activity for a maximum of 20 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Board of Anesthesiology: CME credit will be sent directly to The American Board of Anesthesiology to fulfill the Part 2 requirement for the Maintenance of Certification in Anesthesiology Program (MOCA®).

Anesthesiologist Assistants: The National Commission for Certification of Anesthesiologist Assistants (NCCAA) will accept CME credit for programs approved for continuing medical education by the AMA, AAPA, and ACCME.

Canadian Physicians: This activity is eligible for Section 1 credits in the Royal College's Maintenance of Certification (MOC) Program. Participants must log into MAINPORT to claim this activity.

Certified Registered Nurse Anesthetists: This program is designed to meet requirements for Class A CE credit. Once approved by AANA, this will be indicated.

Nurse Practitioners: The American Academy of Nurse Practitioners Certification Program (AANPCP) and the American Nurses Credentialing Center (ANCC) accept CME from organizations accredited by the ACCME.

Osteopathic Physicians: This program is eligible for Category 2 credit with the American Osteopathic Association (AOA).

Physician Assistants: The American Academy of Physician Assistants (AAPA) accepts certificates of participation for educational activities certified for AMA PRA Category 1 Credit™ from organizations accredited by ACCME or a recognized state medical society. Physician assistants may receive a maximum of 20 hours of Category I credit for completing this program.

Bay Harbor is a luxury community stretching along five miles of Little Traverse Bay and Lake Michigan. It features spectacular views, upscale boutique shopping and dining, world-class golf courses, and a deep-water marina. Bay Harbor has been called the crown jewel of northern Michigan for very good reason.

Begin by exploring the Village's shopping district. Walk the brick-paved streets and enjoy the breathtaking views while receiving the ultimate service. Everything from men's and women's clothing, to children's toys, accessories for your boat, and more are available here. No matter what you are hungry for, or what mood you are in, you will find the dining exceptional at the Village at Bay Harbor. Five exceptional eateries will tempt your taste buds and satisfy your every craving. The premier attraction is the Bay Harbor Golf Club, which Golfweek has called "one of the most picturesque golf sites in the country," and Golf Digest has awarded a Five-Star rating. The Links, one of three Bay Harbor Championship quality courses, is inspired by the great seaside courses of Ireland. Bay Harbor overlooks Little Traverse Bay and Bay Harbor Lake.

Numerous other towns are nearby, just waiting to be explored! Petoskey is a charming lakeside community with unmatched beauty and charm. It is known for its breathtaking views, Victorian architecture, historic Gaslight Shopping District, and Michigan's state stone, the Petoskey Stone. Speaking of Petoskey Stones, the nearby villages of Alanson and Walloon Lake Village are just, well, a stone's throw away.

We have a block of rooms for seminar participants. Once this block is sold, rooms are based upon availability only and may be at a higher rate. To make reservations, please visit our website: www.nwas.com or call (800) 222-6927.
