22nd Annual

Pediatric Board Review

August 29 – September 2, 2016

Renaissance Hotel | Cleveland, OH

**Join the thousands of pediatricians
who have successfully prepared for
their boards over the past 22 years!**

Featuring:

- Comprehensive review course for primary pediatric certification or recertification exams
- Intensive review of pediatrics for practitioners interested in an update
- Expert case-driven strategies for passing the pediatric boards
- Multiple sessions incorporating high-yield interactive audience response to simulate board questions
- Complimentary App available with note-taking and highlighting ability
- Recommended supplemental materials – *Intensive Review of Pediatrics* textbook (optional)

ccfcme.org/GoPedReview

Join us for the Cleveland Clinic 22nd Annual Pediatric Board Review

Dear Colleague:

I am pleased to invite you to attend our *22nd Annual Pediatric Board Review* on August 29 – September 2, 2016 in Cleveland, Ohio.

This nationally recognized five day course will provide a comprehensive pediatric board review to prepare you for board certification or recertification. The quality and breadth of content is also beneficial for individuals needing a thorough review of basic pediatric clinical information.

There are several unique features that set this review apart from the others. These include the use of an anonymous audience response system, which allows attendees to gauge their knowledge base and become familiar with board-type questions while attending the course. This also allows the lecturer to introduce topics in a question and answer format and stress board examination-relevant information. In addition, there are general pediatric and specialty-specific board simulation sessions, during which board questions/answers and rationale will be discussed and explained.

Of special value are the study resources available to you. A complimentary App allows you to access speaker slides at any time before, during, and after the review for future reference. These slides include the board-relevant questions presented during the course.

Participants are also able to purchase the 4th edition (2013) textbook, *The Cleveland Clinic Intensive Review of Pediatrics* for \$79. This is the first comprehensive textbook to specifically focus on pediatric board review certification and recertification and features board review type questions to help you study.

If you need further information, please feel free to contact me. I look forward to having you join the thousands of pediatricians who have successfully prepared for their boards over the past 22 years!

Camille Sabella, MD
Course Director

By Attending, You Will Be Able To:

- Acquire the core knowledge necessary to pass the pediatric board examination or recertification exam
- Devise a differential diagnosis for a specific patient presentation
- Interpret laboratory findings for a host of clinical presentations
- Construct a therapeutic plan for a specific patient presentation

Who Should Attend?

This board review is directed to physicians preparing for board certification or recertification and those desiring a comprehensive update of basic pediatric clinical information.

Course Director

Camille Sabella, MD

Vice Chair, Education
Pediatrics Institute
Director
Center for Pediatric Infectious Diseases
Cleveland Clinic Children's

Lectures will be provided by expert Cleveland Clinic staff and guest faculty.

Comments from Past Attendees:

"Excellent explanations...sample test slides were very helpful in understanding board-type questions."

"This is how all board simulations should be. Nice job!"

"The textbook is very helpful and offers great sample questions."
