you there!

SAVE THE DATE!

16th Annual UC Davis Nephrology and Transplantation Conference

Nephrologists, social workers, nurses, dietitians and other health care professionals involved in the care of acute and chronic renal disease patients, including pre- and post-renal transplant patients, are invited to attend.

Conference discussion topics include:

- What's new in living donor kidney transplantation.
- National initiatives to increase utilization of deceased donor kidney transplantation.
- Patient perspective from start to finish.
- Current strategies to address frailty in patients with ESRD.
