

Athens awaits you

Reasons that make Athens an ideal Congress destination:

- Athens is one of the safest cities in the world
- Has a mild temperature with more than 300 days of sunshine throughout the year
- Exceptional conference venues and facilities
- Easy accessibility by road, sea and air. Athens lies in the hub of air networks linking the western hemisphere and Europe to Africa, the Middle East and Far East
- Great cultural and historical interest, including archaeological sites and museums, a great variety of tours and excursions and a variety of other cultural attractions

Congress Venue: Athens Hilton

- 527 Rooms inc. 3 Executive floors / 6000 square metres of function space
- 4 restaurants & 2 bars / New extensive health club & spa
- 35 minutes from the airport
- 10 minute-walk from the finance & shopping centre
- Athens metro station on our doorstep direct to Airport in 30 minutes /Taxi/Bus stops
- 10 minutes from the Acropolis /A few minutes away from the main museums

Accommodation for all budgets

All suggested Congress hotels are situated in the Athens City itself and are located in a range from 100m up to 3 km from the Congress Venue. Average distance travel duration from the proposed hotels to the Congress venue varies from 2' – 15' walking or 5'-10' by Metro or 10'-15' by Bus or Trolley bus

BEST WESTERN ILISIA/GOLDEN AGE/STRATOS VASSILIKOS

Pre and Post tours and sightseeing

• Half-day Tours

Cape Sounio: 69 km from Athens

Museums: Acropolis Museum, National Archeological Museum, Benaki Museum

• Day Tours

Aegina: one of the Saronic Islands of Greece, 27 km from Athens

Spetses: an island and a municipality of the Islands regional unit, Attica

• 4 Days Cruises

Cyclades: Andros, Kea, Kythnos, Milos, Mykonos, Naxos, Paros, Santorini, Syros

Saronic Islhads: Salamis, Aegina, Angistri, Poros

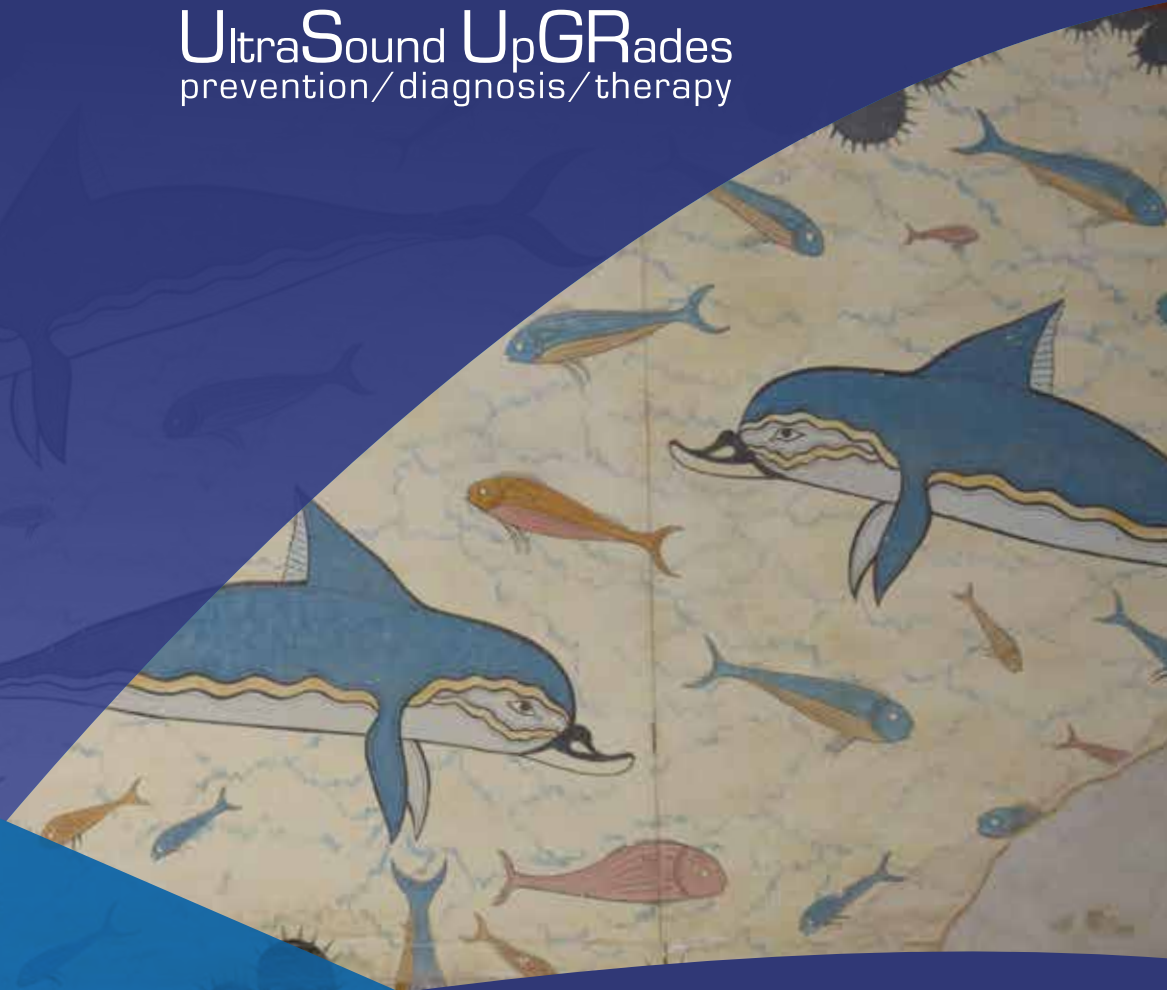

- The Athens Marathon will be held on 08th November 2015

Finish Arch in Panathinaikon Stadium, 10 minutes walk from the Congress Venue

EUROSON2015

27th Congress of the European
Federation of Societies for
Ultrasound in Medicine and
Biology (EFSUMB)

11th Congress of the Hellenic
Society for Ultrasound
(HSUMB)

EUROSON2015

Athens Greece, November 6–8

The European Ultrasound Congress

- European Countries have rich experience in Ultrasound education, solid teaching infrastructure and have developed ways to exchange ideas and guidelines via the EFSUMB
- Medical communities from the Western and Eastern Europe come to EUROSON in order to become updated and trained both in conventional and innovative US techniques and semiology
- In addition to theoretical knowledge the Ultrasonography practitioner needs experience and practice. US techniques should be taught mainly in Practical Courses, with a model or phantom and a transducer at hand, instead of Theoretical lectures. The EUROSON 2015 Congress will follow a "Hands-on approach" in order to truly educate participants in real life conditions

Hellenic Society for Ultrasound in Medicine and Biology:

all medical specialties combine forces for Ultrasound education

President / Nikolaos Papantoniou, Professor of Gynecology

Vice-president / Irene Mastorakou, Radiologist

Secretary General / Konstantinos Vagianos, Professor of Surgery

Treasurer / Eleni Panteleakou, Radiologist

Member / Maria Travassarov, Neurologist

President of EUROSON's 2015 Scientific Committee / A. N. Chalazonitis

In cooperation with Societies of:

GYNAECOLOGY-OBSTETRICS
SURGERY
GASTROENTEROLOGY
ENDOCRINOLOGY
ORTHOPEDICS
CARDIOLOGY

BREAST SURGERY
ONCOLOGY
NEUROLOGY
DERMATOLOGY
ANESTHESIOLOGY
VASCULAR SURGERY

prevention/diagnosis/therapy

Programme

Categorical Courses / Refresher Courses / Symposia / Special Focus Sessions / Scientific Sessions / **Invited Lectures** / How to do-Practical Courses / **Mini Courses** / **Multidisciplinary Sessions** / Plenary Sessions / e-posters

10 Courses

- CC1 – BREAST
- CC2 – OBGYN
- CC3 – MSK US
- CC4 – CARDIOVASCULAR
- CC5 – UPPER ABDOMEN –
Ultrasound Assessment of the Upper
Abdomen and GI-Tract

- CC6 – TRAUMA ICU
- CC7 – UROLOGY
- CC8 – HEAD AND NECK
- CC9 – US IN ANESTHETIC PRACTICE
- CC10 – INTERVENTIONAL US

Course example:

Categorical Course 2 - OBGYN

A.CNS

1. Fetal Brain I: Ventriculomegaly & Agenesis of the Corpus Callosum
2. Fetal Brain II: Posterior Fossa Abnormalities
3. Neural tube defects – Spinal Cord
4. CNS abnormalities at 11-14 weeks

B. Thorax – Abdomen-Skeleton

1. Diaphragmatic Hernia, CCAM & Pleural effusion
2. Craniofacial anomalies
3. GI & Genito-urinary tract
4. Skeletal Dysplasia

C. Fetal Heart

1. Examination of fetal heart in the 2nd trimester
2. Fetal Heart & Chromosomal Abnormalities
3. First trimester Screening for fetal heart anomalies
4. Common Congenital Defects
5. First Trimester Detection of CHD

D.US in Obstetrical Management

1. First term miscarriage and Ectopic pregnancy: ultrasound criteria and management
2. Biophysical profile & doppler in management of IUGR
3. Preterm Labour
4. Ultrasound in Labour
5. Trophoblastic Disease and Caesarean Scar Pregnancy

E. Multiple Pregnancy

1. Multiple pregnancy: the basics
2. Screening for chromosomal abnormalities in
3. First trimester screening for TTTS
4. Management and Complications in monochorionic twins

Practical Course 2 - OBGYN

Obstetrics

1. US in obstetrics / 1st trimester
2. US in 2nd trimester pregnancies
3. Fetal Heart
4. Amniocentesis/ CVS / FBS

Refresher Course 2 - OBGYN

A.Screening in Obstetrics

1. What should not be missed from fetal anatomy in the 1st trimester
2. The first trimester scan: time for a rethink
3. Screening for preterm delivery
4. The role of Amniocentesis and CVS in the era of non-invasive prenatal testing (NIPT)

B. "Ultrasound in Gynecology"

1. Classifying Ovarian Pathology by ultrasound
2. Evaluating cervical neoplasia by color Doppler -Elastography
3. Diagnosing fibroids, sarcoma and adenomyosis with ultrasound
4. Ultrasound of Pelvic floor disorders
5. The role of ultrasound in the diagnosis of endometriosis

C. US Guided Invasive Diagnostic and Therapeutic Procedures during Pregnancy

1. Amniocentesis vs CVS
2. Fetal Blood Sampling and intrauterine transfusions
3. Sonographic Evaluation & Management in TTTS
4. Shunting in Pleural effusions CCAM
5. US Guided Invasive Procedures in Fetal Obstructive Uropathy

D. Ultrasound in High Risk Pregnancy

1. Screening of Pre-eclampsia in the First Trimester
2. Ultrasound for Fetal Growth/IUGR
3. Placenta ; Umbilical Cord; Amniotic Fluid
4. Elastography of the cervix and prediction of preterm labor

Gynecology

1. 2D 3D Color Doppler Evaluation of the Ovaries
2. 2D 3D Evaluation of with Color Doppler of the Uterine Body Cervix
3. Elastography of the Uterine Body and Ovaries
