Statement of Learning Objectives

As participants of this CME activity, learners will:

- Refine approaches to the diagnosis and treatment of select dermatologic diseases based upon current evidence-based data.
- Recognize and identify key factors in the correct diagnosis and creative therapies of common skin conditions.
- Learn the latest advances in laser dermatology.
- Understand the various chemical peel options to treat difficult cases of dyspigmentation.
- Review the latest advances and techniques in the use of cosmetic neurotoxins and fillers.
- Understand the latest advances in treating challenging skin cancer patients.
- Strengthen the ability to differentiate common mimickers in dermatopathology.
- Understand the impact of immune modulators for the treatment of atopic dermatitis, psoriasis, and other common dermatological conditions.
- Understand the role of dermatologists in a changing medical climate.
- Learn and review the evaluation and management of the patient with blistering disorders.
- Understand the role of vitamin D in disorders of the skin.
- Review common challenges in treatment of patients of color.
- Focus upon precise histopathologic diagnostic techniques through interactive and didactic teaching sessions.
- Integrate new and effective diagnostic, therapeutic and surgical advances to treating pediatric patients.
- Review and understand the SGR repeal and alternative payment models.
- Learn and review the intricacies of challenging cases in dermatopathology

Registration Form & Fee Schedule

First Name: _____ Last Name: _____ Suffix: _____

Business or Institution: _____

Mailing Address: _____

City: _____ State: _____ Zip: _____
