Course Introduction

Course Overview

Scripps Health's Primary Care in Paradise conference was designed by primary care physicians for primary care physicians and will present content from their unique perspective. This important CME conference will educate and promote improved patient outcomes in a broad range of therapeutic areas commonly encountered in the busy primary care practice. The 2018 conference will focus on cardiology, nephrology, pain management, infectious disease, dermatology, and other important disease states providers come across in practice. In addition to an overview of the history and current science of a variety of specialty areas, content will be presented in a very practical, patient-focused manner relevant to the specific primary care setting and challenges.

Rates and Reservations

Guestrooms at the Hyatt Regency Maui Resort feature a sleek, contemporary Hawaiian design that is both comfortable and sophisticated. Each luxury Maui hotel room also features a private lanai from which to enjoy panoramic views. Room rates are inclusive of daily self-parking and are as follows:

- Resort View: \$269 p/night
- Partial Ocean View: \$299 p/night
- Deluxe Ocean View: \$325 p/night
- Deluxe Ocean Front: \$360 p/night

Please note these rates do not include taxes, portorage or discounted resort fee. The Hyatt Regency Maui is offering our conference participants a discounted daily resort fee of only \$15 (regularly \$30 per day).

Make your reservations early! A block of rooms is being held for us at the rates outlined above **until February 14, 2018 or until the block fills, whichever comes first. This block will fill quickly.** After this date, reservations will be accepted on a space and rate availability basis only and discounted room rates cannot be guaranteed. Be sure to mention that you are attending the Scripps Primary Care Conference when making your reservations to receive the reduced room rate and resort fee.

Please note: Attendees who book their room through an online, third-party service (Hotels.com®, Expedia.com®, Priceline.com®, etc.) are not eligible to receive the amenities listed above.

Conference Highlights

- Presentation of a wide variety of therapeutic areas commonly encountered in primary and urgent care settings
- Practical and useful content, including pearls, additional resources, course materials, and recordings for later reference
- Dynamic and interactive formats including case studies, audience response system, and ample opportunities for Q&A
- Optional interactive two-part dermoscopy workshop featuring real-life cases
- Half-day schedule at one of Hawaii's most popular vacation destinations allowing time for learning and relaxation

Educational Objectives

After attending this live activity, participants should be able to:

- Discuss the history, science and evidence of commonly encountered therapeutic areas.
- Integrate current trends in preventive health care into patient care strategies.
- Diagnose frequently encountered medical conditions using office examinations and formal diagnostic techniques.
- Formulate a comprehensive treatment program for various health issues, coordinating other team members within the practice to support the patient care strategy.
- Manage the specialist referral process: assess when to refer, recognize what the specialized treatment will consist of, and determine the role of the primary care physician in cohesive care and follow-up.
- Identify common overlapping or related conditions.
- Access and/or recommend resources for both physicians and patients to acquire additional information pertinent to a range of therapeutic areas.
- Effectively discuss with patients their personal responsibilities in prevention and treatment.

Target Audience

- Family Medicine
- Internal Medicine
- General Practitioners

Dermoscopy Workshop

Additional Fee

This interactive, two-part skills workshop is designed for physicians looking to introduce dermoscopy into their practice or further their skill set. The first part of the workshop will offer an introduction to dermoscopy and its use in identifying melanoma skin cancer. The second part of the workshop will review real-life cases allowing participants to apply what they have learned. The workshop will be taught to a limited audience allowing for extensive interaction with the expert speaker. Participants in attendance will earn an additional **2 AMA PRA Category 1 Credits™**.
