

3rd Education and Training PAIRS Course

Scientific Program

November 4-6, 2016
Hotel Sofitel Rabat Jardin des Roses
Rabat, Morocco

Welcome

Dear Colleagues

It gives us great pleasure to welcome you to the Pan Arab Interventional Radiology Society (PAIRS) Annual Workshop that is taking place at the Hotel Sofitel Rabat Jardin des Roses on November 4-6, 2016 in Rabat, Morocco

Building on your contribution to the success of the previous PAIRS Workshop in 2015, we are delighted to welcome you in the historical city of Rabat. PAIRS is strongly committed to contribute with educational sessions which support healthcare professionals to a systematic scientific evaluation and discussion of new methods, allowing conclusions for daily interventional practice. In this respect a three days' workshop has been designed providing comprehensive case-based review and hands on experience covering topics in embolization, venous interventions, amputation prevention and neurointerventions.

The meeting is also a great opportunity to meet and network with colleagues in the field of IR. More than 200 healthcare professionals are expected to attend originating from the Maghreb region. We look forward to welcoming you to this unique educational activity which we hope would be an enjoyable and fruitful experience to all. Sincerely
