Congress Overview:

Healthcare in the GCC region has always aimed to be a pioneer in establishing a sustainable patient-centric Model that follows the highest international standards. Pharmacists are at the forefront of this strategic direction and their vital role in patient care and pharmaceutical advancement is always a key contributor to the effective execution of personalized patient models.

The **6th Annual GCC Pharmacy Congress** provides an excellent opportunity to network and engage with top tier regional experts as well as esteemed speakers from across the GCC region whom will share their expertise and engage in a productive dialogue that will enhance the overall scientific exchange experience.

The scientific program of the Congress is tailored according to the individual needs and interests of hospital and community pharmacists, as it offers the possibility to choose between two parallel streams with keynote presentations and workshops. This year we also provide "Pharmaceutical Supply Chain Symposium" which will offer in-depth analysis of the current challenges, whilst exploring alternative strategies and solutions.

We are confident that you will enjoy this year's dedicated tracks and gain amplified knowledge from the conference that is highly beneficial to apply in your practice.
