Our Story

For the past 18 years, the World Vaccine Congress Washington congress has evolved and grown into the leading vaccines congress globally, in content, speakers, attendees and networking opportunities.

Back in 2015, we introduced a successful new format which allowed for whole-sector topics, giving an opportunity for people to find out more about their specific area of research and their job-function. By running parallel niche conferences over the 3 days, it increased the relevance of the whole event for everyone who attended.

The impact of this has been to increase the quality of the speaker line-up and those who sign up to attend, as the content truly moved forward, covering the important blue-sky keynotes whilst also providing personalised content for every attendee.

In 2019, we will be continuing this format with the pre-congress workshops and conferences in Cancer Immunotherapy, Immune Profiling, Respiratory Vaccines, Emerging & Re-emerging Diseases, Clinical Trials, Vaccine Partnerships,

Bioprocess & Manufacture, Vaccines Safety, Logistics and Veterinary Vaccines. We will also be looking to expand into newer topic areas such as BioDefense, Big Data and Bioinformatics in a greater capacity, engaging more profiles from Army, DoD, non-profits and national representatives in healthcare than ever before.

Throughout these sessions you will learn how cutting-edge research efforts can be integrated with pharma, biotech, academia and government to produce more and better vaccines to the market.

With so much on show throughout these four days and unparalleled networking and learning opportunities, we're confident that you will walk away from this year's congress safe in the knowledge that your time has been well worth it.

We look forward to welcoming you there.

To exhibit, sponsor or speak at this event call Marc Rhys-Evans on +44 (0)20 7827 5945 or email marc.rhys-evans@terrapiinn.com

This focused vaccines safety and pharmacovigilance conference will take you through the entire life cycle of vaccine safety, from pre-clinical to post-licensure as well as covering hot topics in vaccine confidence and legislating vaccines.

Why Sponsor

SPEAKING OPPORTUNITIES

If your company is interested in delivering a thought leadership, education or case study presentation at the event in the conference agenda, we have limited slots as per the following sponsorship packages.

Stand alongside top vaccine decision makers from key Pharma, Biotech, Government, Academic/Research Institutions and non-profits, to make sure your company is front of mind to those who matter.

EXCLUSIVE KEYNOTE TITLE

Exclusive to one company only, you will have the opportunity to present in the **KEYNOTE plenary** alongside a handful of the very top vaccine industry thought leaders, and to an audience of over 400 decision makers.

No other company at the event will have the same chance to position itself in the same way in your area of expertise, so offering unparalleled visibility to demonstrate your offering as the leader in your field.

PLATINUM

Presenting to a more targeted vaccine audience in your specific area of expertise, this is an exclusive opportunity to be the **session lead sponsor** and one of the first speakers of the relevant conference track.

GOLD

If you are looking for a platform to **demonstrate and educate** the leading vaccine decision makers of the full range of your services and capabilities, we have a few limited presentation opportunities within each targeted conference track to present in.

SILVER

Either **chair one of the conference track sessions** relevant for your business or join one of the limited relevant **panel discussions**.

ROUNDTABLE

Opportunity to **host/moderate one of the Roundtables** discussions on a topic of your choice

WHO SHOULD SPONSOR AND EXHIBIT?

Our sponsors and exhibitors are drawn from across the industry including

Contract Research Organisations

Contract Manufacture
Organisations

Equipment

Technology and device
manufacturers

Clinical Trial Site / Network,

Platform Technology

Biotech

Pharma

Supply & Logistics

Bioanalytical / Data Companies

Consultants

NETWORKING OPPORTUNITIES

A core focus of the event outside the conference sessions is for all attendees to be able to network and develop lasting relationships with each other to drive their businesses. We have several tools for this as follows:

PRIVATE SPONSOR MEETINGS

If you have access to this exclusive service your **networking manager** will meet you with your pre-confirmed meeting agenda for the 3 days, where these will take place at your reserved table within the Sponsor Networking Table area.

DRINKS NETWORKING RECEPTION

Following the close of Days 1 & 2 conference sessions there will be **complimentary networking drinks reception** for all attendees to enjoy, and continue the discussions of the day in an informal and relaxed atmosphere.

EXTENDED NETWORKING LUNCHES AND BREAKS

Extra time has been allocated for **networking during the breaks** to ensure maximum opportunities for developing business relationships.

JUJAMA PARTNERING TOOL

Please use this powerful platform and app to continue to set up meetings on-site with other delegates, as well as after the event where it will stay live to communicate. Create and maintain a public profile, request meetings with other members, manage a personalised schedule of event sessions and meetings, send private in-app messages to other members and much more.

For meetings already set up these will take place within the **exhibition area** at your allocated table that was confirmed to you for the meeting. Please turn up at the specified time for your meeting and keep within the time limit so that the next set of meetings can run on time as scheduled. If for any reason you need to change the time or contact the delegate you are meeting, this can be done in real time on the app.
