

Course Purpose and Objectives

The purpose of this course is to provide practicing otolaryngologists with didactics and cadaveric dissection focusing on the frontal sinus. Participants will better understand the complex anatomy of the frontal sinus and be introduced to novel instruments and techniques for frontal sinus surgery.

Target Audience

The target audience is practicing otolaryngologists involved in the management and care of patients with sinonasal disease, particularly of the frontal sinus.

Learning Objectives

At the conclusion of this course, attendees should be able to:

- Discuss advanced and complex anatomy of the frontal sinus.
- Review current techniques and procedures in frontal sinus surgery.
- Describe the most up to date surgical instrumentation for frontal sinus surgery

Accreditation

Physicians

USF Health is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

USF Health designates this Live Activity for a maximum of 8.25AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclaimer

The information provided at this CME/CE activity is for continuing education purposes only and is not meant to substitute for the independent medical/clinical judgment of a healthcare provider relative to diagnostic and treatment options of a specific patient's medical condition.
