Welcome

UCLA GI Week

Target Audience: *Gastroenterologists, GI Endoscopists, Hepatologists, GI Physician Assistants, GI Nurse Practitioners, GI Nurses, GI Fellows and other Allied Health Care Professionals.*

The UCLA Division of Digestive Diseases is dedicated to its mission of advancing the scientific knowledge and understanding of digestive disorders. Through discoveries in our laboratories and their translation to novel diagnostic and therapeutic approaches, we make improvements in care that are relieving suffering and enhancing quality of life for patients all over the world.

To be truly successful in this aspect of our mission, we must fulfill another critical calling — education of the researchers and clinicians of tomorrow and today.

With that in mind, the UCLA Division of Digestive Diseases is proud to offer two major education programs back to back — what we refer to as UCLA GI Week. On March 10, 2016, the **CURE: Digestive Diseases Research Center Annual Research Meeting and Poster Session** will be held. This day-long meeting is composed of lecture presentations and an extensive poster session that prominently features the work of young investigators. This is a non-CME program held on the UCLA campus (see page 8).

The rest of that week — March 11-13, 2016 — we are delighted to present the **4th Annual UCLA-Mellinkoff Gastroenterology and Hepatology Symposium**. Whereas the CURE meeting showcases the latest in scientific discovery, the UCLA-Mellinkoff Symposium represents two-and-a-half days of approaches and solutions that physicians can readily integrate into their daily practices. This CME-accredited course will be held at the Beverly Hilton in Beverly Hills, California.

Join Us

The 4th Annual UCLA-Mellinkoff Gastroenterology and Hepatology Symposium was designed to offer healthcare professionals practical approaches to treatment challenges that can be readily integrated into their daily practice. Faculty will present, through formal lectures, Q & A and illustrative cases, new and emerging diagnostic techniques and therapeutics in caring for those with gastrointestinal diseases. The hands-on session will provide a valuable learning opportunity, though no CME credit will be issued for this portion of the program. Following completion of this program, participants should be able to:

1. Explain the challenges in managing patients with inflammatory bowel diseases
2. Complete a comprehensive assessment of patients with symptoms of refractory reflux
3. Diagnose and manage patients with irritable bowel syndrome
4. Utilize current evidence-based practices to diagnose and treat pancreatic disorders
5. Recognize and manage endoscopic complications
6. Identify which patients would benefit from both surgical and non-surgical weight-loss therapies
7. Assess the latest hepatitis C therapies and their efficacies

Hands-on Session — Physicians Only

The hands-on session will provide a valuable learning opportunity, though no CME credit will be issued for this portion of the program.

Non-CME, Hands-on Session – Physicians Only

The hands-on session will provide a valuable learning opportunity, though no CME credit will be issued for this portion of the program. It will feature up to seven stations demonstrating diverse endoscopic procedures, technologies and techniques using ex-vivo pig stomachs and/or other available models.

The topics include the use of endoscopic mucosal resection, retrieval of difficult foreign bodies and food impactions, oncologic endoscopy, treatment for Barrett's esophagus, closure of perforations, dealing with fistulas, control of bleeding and more.

Faculty with expertise in each of these areas will supervise and mentor the attendees. The hands-on session is complimentary. Please indicate on your registration form if you will be participating.

Faculty include:

Kevin Ghassemi, MD, UCLA

Stephen Kim, MD, UCLA

*Jeffrey H. Lee, MD, MPH,
MD Anderson Cancer Center*

V. Raman Muthusamy, MD, UCLA

Bennett E. Roth, MD, UCLA

Alireza Sedarat, MD, UCLA

Sachin Wani, MD, University of Colorado

Rabindra R. Watson, MD, UCLA

Sherman M. Mellinkoff, MD

The UCLA-Mellinkoff Gastroenterology and Hepatology Symposium is named after a passionate advocate for medical education and a highly respected clinician-teacher who continues to serve as emeritus dean and emeritus professor of medicine at the David Geffen School of Medicine at UCLA.

In 1962, Dr. Mellinkoff was asked by then-Chancellor Franklin Murphy to serve as dean of the UCLA School of Medicine. For the next 24 years, he would oversee a period of remarkable growth and development during which the school secured an international reputation for both medical education and research. By the time he retired in 1986, Dr. Mellinkoff had held his position longer than any other active medical school dean in the country and had earned the nickname "Dean of Deans."

From the beginning, Dr. Mellinkoff was cherished for his commitment to medical education. In both 1961 and 1962, UCLA's medical students presented him with the Golden Apple Award as the faculty member most respected as a clinical teacher. Two decades later, he received the Abraham Flexner Award from the Association of American Medical Colleges, one of its most prestigious awards, and was invited to present the 1982 Alan Gregg Lecture. At UCLA, the Sherman M. Mellinkoff Faculty Award was established in 1979 to celebrate the 25th anniversary of the medical school. The award honors the ideal in doctor-patient relationships and medical education. Because of the high esteem in which Dr. Mellinkoff is held, it is considered by the faculty to be the highest honor of the David Geffen School of Medicine at UCLA.

Meeting Location

The Beverly Hilton 9876 Wilshire Blvd, Beverly Hills, CA 90210

The Beverly Hilton is nestled in the heart of all that is Los Angeles: where the entertainment industry meets fashion, Beverly Hills meets Hollywood. It is within walking distance of Century City and Rodeo Drive. The block of reserved guest rooms offer private balconies that provide panoramic city views. The hotel offers premier spa services, multiple dining options and the Aqua Star Pool, which is the largest hotel pool in Beverly Hills and is heated to 82 degrees year-round.

For more information, visit the hotel's website at www.beverlyhilton.com

Overnight Accommodations

We urge you to make reservations early. **A limited block of rooms, at a special rate of \$279 + tax (deluxe) and \$319 + tax (studio suite), has been reserved at The Beverly Hilton.** The rates will be honored three days pre- and three days post-meeting based on group room availability. Internet access is also complimentary to overnight guests.

To receive this special rate, you must make your reservation before the room block is filled and by the **expiration date of February 18, 2016**. Attendees are responsible for their own reservations. The standard hotel individual reservation cancellation policy will apply to the individual reservations, unless otherwise specified.

To reserve a room, please call (310) 274-7777. Make sure to ask for the "UCLA Division of Digestive Diseases" block. Or make a reservation online at <https://resweb.passkey.com/go/uclamellinkoff2016>

Gastroenterology Nurses (ABCGN), *19.5 hours earned in this activity
are considered GI Specific for the purpose of recertification by contact
hours through the ABCGN.*

Disclosure Statement/Declaration

The FDA has issued a concept paper which classifies commercial
support of scientific and educational programs as promotional unless
it can be affirmed that the program is “truly independent” and free of
commercial influence. In addition to independence, the FDA requires
that non-promotional, commercially supported education be objective,
balanced, and scientifically rigorous. The policy further states that
all potential conflicts of interest of the CME staff and faculty be fully
disclosed to the program's participants. In addition, Accreditation
Council for Continuing Medical Education policy now mandates that
the sponsor adequately manage all identified potential conflicts of
interest prior to the program. We, at UCLA, fully endorse the letter and
spirit of these concepts.
