

Course Schedule

Each course has up to 40 students divided into four equal groups. Each group's schedule will be slightly different, but contain the same sessions.

The following is a sample schedule.

7:00am - 7:45am	Breakfast provided and course Introduction
7:45am - 9:30am	Airway Lab
9:30am - 11:00am	Ultrasound lab
11:00am - 12:30pm	Landmark-guided vascular access lab/Review ultrasound and airway principles
12:30pm - 1:15pm	Lunch provided
1:15pm - 3:30pm	Ultrasound-guided vascular access lab
3:30pm - 6:00pm	Multiple Procedures lab
6:00pm - 6:30pm	Module and Skills Q&A

Multiple Procedures Lab

Stations 1 - 2: Lumbar puncture (and spine ultrasound)

Stations 3 - 4: Thoracentesis (ultrasound-guided)

Stations 5 - 6: Paracentesis (ultrasound-guided)

Station 7: Suturing station/needle decompression

Station 8: Chest tube placement/ Pigtail catheter placement

Airway Lab

Station 1 - 3: Intubating manikin - intubation, laryngeal mask airway, King tube, stylet-guided intubations

Station 4 - 5: Glidescope with adult manikin

Station 6: Glidescope with pediatric manikin

Landmark-Guided Vascular Access Lab

Stations 1 - 3: Central line manikin (internal jugular or subclavian line placement)

Station 4: Arterial line placement

Station 5: EZ-IO / intraosseous lines

Ultrasound-Guided Vascular Access Lab

Stations 1 - 3: Ultrasound-guided central venous access (IJ and subclavian)

Station 4: Start-to-finish central line placement (practicing all steps)

Station 5: Ultrasound-guided peripheral IV placement

Station 6: Ultrasound-guided vascular block lab

Ultrasound Lab

Stations 1 - 2: Chest (pleura), abdomen (E-FAST), hemodynamics (contractility, chamber sizes, IVC, and pericardium), RUSH exam, and vascular ultrasound.

Course Description

The Hospitalist and Emergency Procedures course is the combination of an Online CME course and a one-day live CME course that is 100% hands-on procedural skills lab training. This course provides comprehensive training of the 20 most essential procedures used in the ER, ICU, and hospital wards.

The course will train students how to perform the following ultrasound-guided procedures: central line and peripheral IV placement, thoracentesis, and paracentesis. Also, you will learn about informed consent, procedural sedation, mechanical ventilation, intraosseous line placement, arterial line placement, point-of-care ultrasound including spine and vascular ultrasound, E-FAST and RUSH exams, tube thoracostomy, pneumothorax evacuation, needle decompression, lumbar puncture, endotracheal intubation, Glidescope intubation, intermediate airway placement and difficult airway management, including awake intubations.

The weekend course builds on the one-day course by doubling the hands-on procedural training and solidifying the cognitive aspect of bedside procedures including knowledge of fluid analysis, complication management, and the nuances of hospital procedures in the clinical context (e.g., how to choose an induction agent for intubation, how to choose a procedural sedation regimen, review of the difficult airway management algorithm, how to manage an inadvertent central arterial line placement, how to use point-of-care ultrasound to assess the etiology of shock, etc.).

Course Perks

- 1. **Three** meals provided for all students
- 2. **Memory** stick with all lectures and procedure articles
- 3. **12 Month access to**
 - Online Lectures
 - Procedure videos
 - Instructional skills lab posters

2018 Hospitalist & Emergency Procedures Course Dates & Locations

Jan. 27-28: Las Vegas	Aug. 3-4: Long Beach, CA
Apr. 21-22: Chicago	Aug. 5-6: Long Beach, CA
June 23-24: Washington D.C.	Sep. 22-23: Seattle
	Nov. 3-4: San Antonio

Early Bird Discount!

Save up to \$150 on courses for registration at least 21 days in advance

Course Tuition

One-Day Live CME Course

- Early Bird Tuition for physicians: \$1,445
- Early Bird Tuition for NP/PA/Resident/Government physicians: \$1,395
- Regular Tuition: \$1,495

Two-Day Live CME Course

- Early Bird Tuition for Physician: \$2,645
- Early Bird Tuition for NP/PA/residents/Gov. physicians: \$2,595
- Regular Tuition: \$2,745

Testimonials

"Best medical course that I have ever taken. Well organized, informative, practical, hands on training. Very useful!"

Ellen Ray, Gardner, Massachusetts

"Excellent course! I can't wait to attempt these procedures on live patients and know that I'm able to provide these services to patients that I care for."

Barbara Asorian, MSN, ACNP, Florida

"I am very impressed with the thoroughness and comprehensive approach to this course. I had an opportunity to see, learn and use equipment for the first time in 10 years ... this is a must have refresher for anyone more than 5 years out of training."

Sonja Labrie, M.D. Lindsay, MT

"The most educational course for procedures! Manikins are the best. Instructors are dedicated to us learning."

Denise Clay, M.D., Florida

Ways to Register

1. Secure online registration at: hospitalprocedures.org/course-registration
2. Register by phone at 805-339-0225
3. Fax or mail in registration form located on our website.

Hospital Procedures Consultants

Teachers Invested in Your Success

Jointly Provided By

Who We Are

Mission Statement

Hospital Procedures Consultants commits to providing the best, most comprehensive, evidence-based training in procedural medicine to healthcare professionals.

Vision

Our vision is to increase the skill level and competency of physicians and advanced practice providers so that they will perform procedures safely and competently in emergency and hospital settings.

About Us

Hospital Procedures Consultants is dedicated to providing quality, comprehensive, evidence-based procedural education to emergency physicians, hospitalist physicians, residents, students, and mid-level providers. The founders and lead instructors, Drs. Joseph Esherick and Richard Rutherford, are accomplished clinicians and procedural educators with successful track records who have been teaching this subject material nationally for over 20 years.

Why Choose HPC?

- Faculty with 40 years of national teaching experience
- Five instructors at every course
- Live courses with 100% hands-on training
- All courses with low student-to-faculty ratios
- Unparalleled student satisfaction scores
- Most of our graduates are comfortable performing procedures independently after our training
- Learn didactics anywhere/anytime with our Online lecture and videos
- One year access to all procedure videos and lectures
- CME that saves lives
- We are teachers invested in your success

Faculty

Joseph Esherick, M.D., FAAFP, FHM

Joseph Esherick, M.D., FAAFP, FHM is the Director of Medicine, a hospitalist and ICU physician at the Ventura County Medical Center in Ventura, California. He is also an Associate Clinical Professor of Family Medicine at The David Geffen School of Medicine at UCLA. He received his medical degree from Yale University School of Medicine, New Haven, Connecticut, and completed a family practice residency at the Ventura Family Medicine Residency program. He is board certified in family

medicine and the author of the Tarascon Primary Care Pocketbook, Tarascon Hospital Medicine Pocketbook, Tarascon Medical Procedures Pocketbook, Tarascon Clinical Review Series: Internal Medicine, Procedures: Hospital Collection iPhone App, Current Practice Guidelines in Primary Care and numerous medical reference cards. He is also a medical expert for the Medical Board of California. He has been teaching clinicians nationally how to perform hospital and emergency procedures since 2004. In addition, he was the Co-Director of the 2015 Society of Hospital Medicine's Precourse "Medical Procedures for Hospitalists." Finally, Dr. Esherick was voted the Most Outstanding Teacher at the Ventura Family Medicine Residency Program four times.

Richard Rutherford, M.D., FAAFP

Richard Rutherford, M.D., FAAFP graduated with honors from the University of Washington School of Medicine in 2001 and went to Ventura County Medical Center in California for his Family Practice residency. He served as faculty in the Stanislaus Family Practice Residency where he practiced and supervised residents in outpatient family medicine, obstetrical deliveries, and inpatient/intensive care. He currently works as an attending physician in the department of Emergency Medicine at Ventura County Medical Center.

He also served as Medical Director of Quality for Ventura County Medical Center and Santa Paula Hospital. His awards include the Theodore Phillips Award for Excellence in Family Medicine, the Resident Teaching Award from the Society of Teachers of Family Medicine, the Stanislaus Family Practice Residency Outstanding Faculty Award and the Ventura County Outstanding Resident Teacher Award.

CME Information

One-day Course:

Credit Designation:

The Postgraduate Institute for Medicine designates this live activity for a maximum of 10.0 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Two-day Course:

Credit Designation:

The Postgraduate Institute for Medicine designates this live activity for a maximum of 20.0 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

On-line Course:

Credit Designation:

The Postgraduate Institute for Medicine designates this enduring material for a maximum of 11.5 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Physician Continuing Medical Education

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Postgraduate Institute for Medicine and Hospital Procedures Consultants. The Postgraduate Institute for Medicine is accredited by the ACCME to provide continuing medical education for physicians.

This program has been granted 10 contact hours (one day course) or 20 contact hours (two day course) of AANP CE (which includes 0 pharmacology hours (s)) by the American Association of Nurse Practitioners.

AANP 1 Day Course Program ID# [17102885](#)

AANP 2 Day Course Program ID# [17102886](#)

This program was planned in accordance with AANP CE Standards and Policies.

Disclosure of Conflicts of Interest

PIM requires instructors, planners, managers and other individuals who are in a position to control the content of this activity to disclose any real or apparent conflict of interest (COI) they may have as related to the content of this activity. All identified COI are thoroughly vetted and resolved according to PIM policy. The existence or absence of COI for everyone in a position to control content will be disclosed to participants prior to the start of each activity.

Target Audience

This activity has been designed to meet the educational needs of physicians, nurse practitioners, physician assistants, nurse anesthetists, and medical students.

Course Objectives

After completing this activity, the participant should be better able to:

- Define indications and contraindications for each procedure
- Identify pertinent anatomy and proper positioning for each procedure
- Demonstrate proper technique for each procedure
- List common complications of each procedure
- Utilize appropriate management strategies for procedural complications
- Identify risk factors for complications from each procedure

Americans with Disabilities Act

Event staff will be glad to assist you with any special needs (ie, physical, dietary, etc). Please contact Gina Esherick prior to the live event at (805) 339-0225.

In-Kind Support provided by FujiFilm/SonoSite, Verathon, CareFusion, and Teleflex
