

The 37th Annual Charles R. Jerge Dental Seminar

Aug. 1–5, 2016

Embassy Suites / Kingston Plantation
9800 Queensway Blvd.
Myrtle Beach, SC 29572

*Provided by:
Northwest Area Health Education Center (AHEC)
a program of Wake Forest School of Medicine and a part
of the North Carolina AHEC System.*

Managing Pain and Infection in Dental Practice

Monday, Aug. 1, 2016 \ 8 am–12:15 pm

Daniel E. Becker, DDS, Dayton, Ohio

Pain and infection are the most common problems in dental practice that require pharmacological intervention. To manage these complications effectively, attention must be given to the patient's current medical status and potential drug interactions as well as controversies surrounding opioid abuse and antimicrobial misuse and resistance. This presentation will clarify current concerns and provide safe and effective strategies for patient management.

At the conclusion of this seminar, the participants should be better able to:

- Recognize medical issues that influence the selection of drug regimens including the clarification of allergies and potential drug interactions.
- Discuss basic principles that guide the selection of specific regimens for both the prevention as well as the management of existing pain, inflammation and infection.
- Describe the essential pharmacological features of opioid analgesics, glucocorticosteroids and antimicrobials.

Enhancing Access to Oral Health for Geriatric and Special Care Populations

Tuesday, Aug. 2, 2016 \ 8 am–12:15 pm

Ford T. Grant, DMD, FASGD, DABSCD, FRCS Ed
Ahoskie, N.C.

The program will address evaluation, medical management, communication with caregivers, and treatment of older adults and patients with special needs in the dental office and at the nursing home.

At the conclusion of this seminar, the participants should be better able to:

- Discuss practical approaches for preventing and restoring root caries.
- Manage fungal infections and other oral conditions.
- Use practical approaches for fabricating dentures for challenging patients.

The Future of Dentistry and the New Periodontal Disease

Wednesday, Aug. 3, 2016 \ 8 am–12:15 pm

Samuel B. Low, DDS MS
Gainesville, Fla.

The concept of the oral physician continues to dominate conversations as a futuristic approach to the delivery of care. In addition, current research suggests periodontitis is a major chronic inflammatory disease. Management of the periodontal patient requires a rethink as to risk assessment, therapy and viewing prognosis. A concept of present and future systems from laser stimulation to nutraceuticals will be presented for both oral and systemic health. This approach will result in high case acceptance and enhanced productivity.

At the conclusion of this seminar, the participants should be better able to:

- Assess the present and future of the dental profession considering trending from political and socio economic variables.
- Develop a candid perspective of the oral systemic link with a spin on case acceptance.
- View periodontitis as an inflammatory disease and not as infection.
- Implement perio protocols that result in effective clinical results with financial reward.

Dental Implants Update for the General Practitioner

Thursday, Aug. 4, 2016 \ 8–10 am

Matthew L. Hopfensperger, DDS, MS
Chapel Hill, N.C.

This program will review the concepts of single- and dual-scan protocols with CBCT technology and demonstrate their use in dental implant surgical planning. The current concept of digital cad/cam technology for the restoration of dental implants will be included.

At the conclusion of this seminar, the participants should be better able to:

- Understand the use of single- and dual-scan protocols with CBCT technology.
- Demonstrate the use of CBCT technology in dental implant surgical planning.
- Understand the use of cad/cam technology for the restorations on dental implants.

Risk Management and Dental-Legal Issues

Thursday, Aug. 4, 2016 \ 10:15 am–12:15 pm

Kenneth L. Jones, Attorney
Greensboro, N.C.

This seminar will address some of the trends in dental malpractice litigation and complaints. We will discuss how to recognize and avoid some common errors in risk management.

At the conclusion of this seminar, the participants should be better able to:

- Recognize and avoid common risk management pitfalls/issues.
- Gain better insight of malpractice litigation/claims and state licensing board complaints.

Providing Patient-centered Care for Diverse Patient Populations

Friday, Aug. 5, 2016 \ 8 am–12:15 pm

Kimberley Gise, DDS, MS
Greenville, N.C.

In a nation where populations are becoming more diverse, today's health care professionals must adapt to provide patient-centered care. How do we care for patients from cultural, socioeconomic, ethnic and racial backgrounds that may be different from our own? This course will provide the information and tools necessary for patient-centered care that addresses patients' cultural beliefs, behaviors and needs in a culturally competent manner.

At the conclusion of this seminar, the participants should be better able to:

- Discuss the trends of demographic changes among patients and health professionals.
- Define and/or describe culture, diversity, cultural competence, cultural diversity and health equity.
- Explain how cultural beliefs shape clinical encounters.
- Demonstrate effective techniques/adaptations to increase your patient base with culturally competent patient-centered care.

Additional Information

If you have questions about registering for this activity or need auxiliary aids or special services to attend, please contact Mary Brogdon at least 10 working days prior to the activity by calling 336-713-7757 or emailing mbrogdon@wakehealth.edu.

Credit

Wake Forest School of Medicine is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Wake Forest School of Medicine designates this activity for 20 hours of continuing education credits.

Wake Forest School of Medicine Disclaimer

Institutions providing dental education have an obligation to disseminate new knowledge related to dental practice. In doing so, some information or representation may include controversial materials or commercial references. Wake Forest School of Medicine acknowledges that there is potential risk to participants using limited knowledge when incorporating new techniques and procedures into their practices, especially when the continuing education program has not provided them with supervised clinical experience in the techniques and procedures to ensure that they have attained competence. Sponsorship of continuing education courses by Wake Forest School of Medicine does not imply endorsement of a particular philosophy, product or procedure by this institution.

Note—Registering for and attending this program authorizes Northwest AHEC/ Wake Forest School of Medicine to take pictures to be used for the Center's publications, website (including social media sites) and presentations. If you do not wish to be photographed, you may opt out of photographs the day of the activity.

Dedication

The Charles R. Jerge Dental seminar is presented in honor and memory of a man of vision and innovation. He had a strong belief in the well-trained general dentist and in lifelong continuing education for the dental profession. In addition, he dedicated much of his professional work to quality improvement in dentistry. Through his hard work, this annual meeting evolved into a respected and high quality continuing education program nationwide.

Special Needs

Wake Forest School of Medicine adheres to the Americans with Disabilities Act. Please report any special needs you may have (including dietary) for participation in and/or access to this educational activity to Northwest AHEC at 336-713-7757.

Location

Embassy Suites at Kingston Plantation is located at 9800 Queensway Blvd., Myrtle Beach, S.C. For more information, visit KingstonPlantation.com or call 843-449-0006. The cut off date for the room block is June 30, so make your reservations early. **Group name: WFUHS 2016; Charles R. Jerge Dental Seminar; Group code is "WFU"**

Cost and Registration

\$675—Dentist

\$275—Staff

Registration fee includes instructional and administrative costs, daily light breakfast, midmorning breaks and 20 hours of dental continuing education.

When planning for an educational activity, registration fees are not based on credit hours or agenda. Registration fees are based on expenses such as meeting room rentals, food, equipment, staff, etc., and are not adjusted by issues such as cancellation of speakers or other unforeseen circumstances. Every effort will be given to ensure the activity is a success.

Register and pay online at northwestahec.org or complete and return the attached registration form by mail or fax. Payment by credit card (Visa, MasterCard, American Express), cash, money order, personal check or corporate check is accepted. If you have not received confirmation of your registration two weeks before the program date, please call Mary Brogdon at 336-713-7715 or email mbrogdon@wakehealth.edu to verify the status of your registration.

Payment and Refund Policies – Refunds (minus \$75 administrative fee for dentists and \$25 administrative fee for staff) are available up to July 1, 2016. **No refunds will be given after July 1, 2016.**

Fun Run

A three-mile Fun Run will be held Wednesday, Aug. 3, 2016, at 6 am. Sign in at 5:30 am. There is no fee, but preregistration is needed for planning the activity. T-shirts will be awarded to all participants.
