Program Directors

C. Huie Lin, MD, PhD, Thomas E. MacGillivray, MD,
Gary Monteiro, MD, and Ari Cedars, MD

Program Overview

For the first time in history, patients born with congenital heart disease are surviving and even thriving in adulthood, many with a normal life expectancy. Unfortunately, many are lost in the system as they go from pediatrics to an adult physician. Because of this, physicians from all fields should develop an understanding of this challenging condition. This educational program focuses on the basics of adult congenital heart disease using didactic lectures and panel discussions from leading experts.

Target Audience

Internists, family practitioners, obstetricians, generalists, radiology technologists and nurses will benefit from this course.

Educational Objectives

Upon completion of this live activity, the participant should be able to:

- Define the basic anatomy changes in common adult congenital heart conditions
- Identify the early signs of a congenital issue
- Describe when to intervene and when to refer
- Discuss important measures for maintenance and preventive care in adult congenital heart disease

Accreditation and Credit Designation Statements

Physician

Houston Methodist is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

Nursing

Houston Methodist is an approved provider of continuing nursing education by the Texas Nurses Association – Approver, an accredited approver with distinction by the American Nurses Credentialing Center's Commission on Accreditation.

ASRT

An application will be submitted to the American Society for Radiologic Technologists for Category A Continuing Education Credit.
