DAY 1 | 27 OCT | FRIDAY

JOHARA 1-2 BALLROOM

09:00 - 10:30

A 40-year experience on aesthetic rehabilitation: the evolution of clinical approach and techniques

Dr Mauro Fradeani, Italy

11:00 - 11:45

Building a successful practice around successful regeneration

Dr Miguel Stanley, Portugal

11:45 - 12:30

Anterior aesthetics and CMD treatment with composite crowns

Dr Sylvia Rahm, Germany

12:30 - 13:15

Aligners and smile aesthetics

Dr Tommaso Weinstein, Italy

14:15 - 15:00

A new implant system to solve the problem of narrow crestal bone treatment. Clinical and surgical rational

Dr Francesco Oreglia, Italy

15:00 - 15:45

Accelerated implant protocols: How far can we go?

Prof Christian Pierre Makary, Lebanon

15:45 - 16:30

The power of adhesive dentistry: make it simple and predictable

Dr Ahmed Tarek Farouk, Egypt

16:30 - 17:15

Optimising ALL-on-X in the Atrophic Maxilla

Dr Costa Nicolopoulos, Greece

17:15 - 18:00

Immediate loading of short implants in the fully digital full arch rehabilitation

Dr Barbara Sobczak, Poland

18:00 - 18:45

The modified free gingival graft - an innovative approach for treatment of gingival recession defect at lower anterior teeth

Dr Olivier Carcuac, France

JOHARA 3 BALLROOM

11:00 - 11:45

The truth about 3D dental printing

Vanik Kaufmann-Jinoian MDT, Switzerland

11:45 - 12:30

The everything scanner. Every patient. Every treatment. Every time.

Dr Marcos White, UK

12:30 - 13:15

Sobczak Concept – Predictable outcomes through digital approach in full arch treatments

Dr Barbara Sobczak, Poland

14:15 - 15:00

Current workflows for indirect restorations: indications and treatment plan

Dr Marcio Vivan Cardoso, Brazil

15:00 - 15:45

Navigational dental implant surgery: From current practice to future direction

Prof Hesham Marei, UAE

15:45 - 16:15

Facially driven esthetic rehabilitation: Adhesion, Technology & Beyond

Prof Ziad Salameh, Lebanon

16:15 - 16:45

Should my restorations last forever? A guide to prevent failure of direct and indirect posterior restorations

Assoc Prof Hatem El-Damanhoury, UAE

16:45 - 17:30

Free hand artistry backed with 3D digital technology

Dr Ahmed El-Sayed, Egypt

17:30 - 18:15

Vital pulp therapy in immature permanent teeth

Dr Muhannad Takruri, Jordan

18:15 - 18:45

Neurotoxic protein & fillers – the aesthetic industry in dentistry

Dr Rami Haidar, UK

JOHARA 1-2 BALLROOM

09:30 - 10:30

Predictable and long term success in aesthetic dentistry

Dr Galip Gürel, Turkey

11:00 - 11:45

Modern endodontic treatment: from anatomical shaping to bioceramic filling

Prof Marc Kaloustian, Lebanon

11:45 - 12:30

Bioceramic materials in endodontics. The clinical guide for elevating your daily practice

Dr Riccardo Tonini, Italy

12:30 - 13:15

Improve your endodontics: with expert root canal shaping skills

Dr Dhiraj Arora, UK

14:15 - 15:00

Next wave of dental evolution – Master your practice

Dr Aman Kaur, USA

15:00 - 15:45

Digital transformation of implant restoration with variobase abutment: The next generation of dental treatment

Prof Hani Tohme, Lebanon

15:45 - 16:30

Erbium lasers. The indispensable technology for the modern dentist

Prof Dimitris Strakas, Greece

16:30 - 17:15

Piezosonics – A wonderful tool in oral and implant surgery

Prof Dr Christof Pertl, Austria

17:15 - 18:00

Beyond the view: creating sustainable treatments in oral facial aesthetics

Prof Dr Mário Rui Araújo, Portugal

18:00 - 18:45

GBT– Non surgical periodontal therapy. An evidenced based clinical protocol

Dr Neha Dixit, Switzerland

JOHARA 3 BALLROOM

11:00 - 11:45

Digital Smile Design for full arch rehabilitation: Enhancing aesthetics and functionality

Prof Hani Tohme, Lebanon

11:45 - 12:30

Digital oral design: Guidelines for full arch treatment planning

Dr Sam Omar, Egypt

12:30 - 13:15

Sinus Lift crestal approach using hydraulic pressure: A reliable and predictable technique

Dr Maurizio Martini, Italy

14:15 - 15:00

Intraoral scanners in daily dental practice

Prof Joseph Sabbagh, Lebanon

15:00 - 15:45

Full arch implant prosthetics using intraoral scans: Potential, Limitations, and Useful tips

Prof Dr Amr Elkhadem, Egypt

15:45 - 16:30

Unravelling the step-by-step journey of the dental implant planning process: should we use traditional or current digital techniques?

Assoc Prof Ahmad Al Jaghsi, UAE

16:30 - 17:15

Peri-implant tissue optimization in every-day practice. Improving esthetics, function and long-term stability

Dr Ioannis Vergoullis, Greece

17:15 - 18:00

Digital protocols in dentistry: From dental photography to digital implantology. The role of the intraoral scanner

Dr Triantafyllos Karampinis, Greece
